

戦略的イノベーション創造プログラム
Cross-ministerial Strategic Innovation Promotion Program

Pioneering the Future: Japanese Science, Technology and Innovation

The Cross-ministerial Strategic Innovation Promotion Program is a national project under the Council for Science, Technology and Innovation to promote advancements of science, technology and innovation in Japan. This program is innovative in itself, as it crosses the traditional boundaries of Japan's ministries and agencies, leveraging industry-academy-government cooperation to rapidly create basic research leading to concrete exit strategies for powerful, strategic advancements in science, technology and innovation.

CONTENTS

5 What is the Cross-ministerial Strategic Innovation Promotion Program (SIP)?

9 Program Directors, In their Own Words
Ten Projects Key to the Rebirth of Japan and Its Position as World Leader

10 Innovative Combustion Technology

14 Next-Generation Power Electronics

18 Structural Materials for Innovation (SM⁴I)

22 Energy Carriers

26 Next-Generation Technology for Ocean Resources Exploration

30 Automated Driving System

34 Infrastructure Maintenance, Renovation and Management

38 Enhancement of Societal Resiliency against Natural Disasters

42 Technologies for Creating Next-Generation Agriculture, Forestry and Fisheries

46 Innovative Design/Manufacturing Technologies

50 Messages from Executive Members of the Council for Science, Technology and Innovation
