

戦略的イノベーション創造プログラム  
Cross-ministerial Strategic Innovation Promotion Program

## **Pioneering the Future: Japanese Science, Technology and Innovation**

**The Cross-ministerial Strategic Innovation Promotion Program is a national project under the Council for Science, Technology and Innovation to promote advancements of science, technology and innovation in Japan. This program is innovative in itself, as it crosses the traditional boundaries of Japan's ministries and agencies, leveraging industry-academy-government cooperation to rapidly create basic research leading to concrete exit strategies for powerful, strategic advancements in science, technology and innovation.**

# CONTENTS

4	What is the Cross-ministerial Strategic Innovation Promotion Program (SIP)?	
7	Eleven Projects Key to the Rebirth of Japan and Its Position as World Leader	
8	Innovative Combustion Technology	
12	Next-Generation Power Electronics	
16	Structural Materials for Innovation (SM <sup>4</sup> I)	
20	Energy Carriers	
24	Next-Generation Technology for Ocean Resources Exploration	
28	Automated Driving System	
32	Infrastructure Maintenance, Renovation and Management	
36	Enhancement of Societal Resiliency against Natural Disasters	
40	Cyber-security for Critical Infrastructure	
44	Technologies for Creating Next-Generation Agriculture, Forestry and Fisheries	
48	Innovative Design/Manufacturing Technologies	
52	Messages from Executive Members of the Council for Science, Technology and Innovation
