**Interview with Mr. Masaaki Sato, the Administrator of the 38th SSEAYP** | By Amane Kameda, Ma. Theresa C. Cuerdo and Silvanus Hardiyanto.

**What is your expectations from the PYs?** - I expect the PYs to be leaders in the future. I want them to lead in various fields such as Education, Politics, and Health. I hope the PYs shall keep these words in mind, **“Make better to make a difference”**.

**What do you think about the responsibility of the Administrator?** - We have to make sure that the Discussion on Board, Ceremony, Homestay, Institutional Visits as well as Voluntary Activities on board the ship run smoothly. Fortunately I have not encountered quite difficult situations during this program. Every activity had been done smoothly and I believe it was because of the great cooperation of the National Leaders and all people involved, including officials and expats of respective countries. As an administrator, I always keep in mind Safety Management.

**What is your impression about the 38th SSEAYP in 2011?** – I believe that, through the various activities, friendship has been developed among many people, needless to say among the PYs, and they have developed themselves.

**What do you think about the future of this program?** - This program develops the relationships between nations. SSEAYP helps the youth to prepare for the future. It is my strong hope that this program will continue to achieve its mission.

**Interview with Fuji Maru Captain** | By: Taweechai Termkunanon, Nursuhada Binti Ghoni & Sylvanus Hardiyanto

Captain Seiji Kuba joined Mitsui O.S.K. Line in 1983 after he graduated from Kobe Mercantile Marine Academy. He had 13 years work experience as a seaman and another 15 years as shore worker. He said 38th SSEAYP is his first experience and he thinks that all PYs are so grateful to get a fully supported by not only the Japanese Government but also all of the ASEAN Country Governments. Plenty of people are involved including a lot of host families.

He does hope SSEAYP will continue and will be further developed. He also hopes all PYs should be active in each field in Japan and ASEAN countries and they will continue to communicate each other. He also advised PYs to do their best to know each other, to make good friends, to take positive attitude and to be curious about various matters and various cultures.

**Brunei Darussalam | Homestay  
Md Nasroul Hizam Bin Hj Souyono**

Homestay Matching ceremonies in different countries are always the most nerve-wrecking. PYs would be wondering who they would be sharing the next few days with.

The beauty of the Homestay Program is, although PYs are tourists in reality; the families who take them in and assimilate them into the culture as much as possible. For example, parents and siblings are quick to teach the local language.

One of the most enjoyable experiences on SSEAYP is Homestay. While everybody has very different stories to share, it is extremely difficult to say "goodbye" during the Send-Off Ceremony.

**Cambodia | Club Activity  
Rithy Lomorpich**

CA onboard allowed us to deepen our understanding of the unique culture of 11 countries, comprising of Japan and ASEAN. When participating in the activity, we not only had fun, but we also got a sense of success after trying to learn a completely new culture of a certain country and being able to do it by ourselves. Moreover, CA gives us a great opportunity to be together, to make new friends from different countries, to learn from each other more, and accordingly to strengthen our friendship. "Different but we are ONE", brought by CA.

**Indonesia | Pre-departure Training  
Yunita Purwaningyas**

Pre-Departure Training was a wonderful and memorable story to be shared. Actually, the SSEAYP program began here. Even in some cases, this training is tiring and stressful, demands us to work hard even "very hard". In the 'stressfulness', it is still contained with much more fun and wonderful activities. I think the most memorable things from this training; "how we developed the teamwork, and art & culture. Now, I have done the program and I MISS PDT A LOT and I can explain how proud I am being the part of PDT and SSEAYP family.

**Japan | Culture Shock  
Takuya Takeda**

The most impressive thing is that my cabin mate wakes up at 5 o'clock in the morning, spread out Islamic cloth and prays on it. I know that Muslim pray 5 times a day, but I didn't know they wake up such an early time. Another surprising thing is that as time

passes, some Muslim become so tired and they wake up later than 5 o'clock. Their religion is more generous than I expected. A lot of cultural differences in this prestigious program surprised me.

**Lao P.D.R | Cabin Mate  
Phanousone Phalivong**

One of the most important part of SSEAYP is spending time with our cabin mates. I still remember when I first met my cabin mates and we were completely strangers. At the first night we barely talked to one another. As the days went by, from completely strangers who have been living together for 53 days, it has bonded us together. The relationship that has been built among three of us seems like it has been existing for many years. Though the program is coming to an end, I will keep the memory about my cabin mates with me forever.

**Malaysia | Courtesy Call  
Mohd Faqrul Redza Bin Tahiruddin**

In 29 September 2011, Youth Leaders and I had the great opportunity to pay the courtesy call to Cambodian Prime Minister and the Minister of Education, Youths and Sports. During the visit we have learnt the historical side and spirit of youth before the Cambodian Independence Day. It is beneficial for PYs to understand what happened in the past to make their contribution to the peace and positive development of the society by creating an expansion of youth organizations. In addition, this can strengthen the civil society, as well as to ensure the individual productivity of the youth.

**Myanmar | Discussion Group  
Myat Thiha Saw**

On School Education, I know that there are many similarities and differences between the education systems of other participating countries. I am also convinced that the role of the youths who are going to be the youths in the future. Finally we can also share the social activities we learned which have been conducted in other countries and get some new ideas about the post program activities which we should do in our countries.

**Philippines | Country Programs  
Samantha P. Javier**

The country programs in Japan, Brunei Darussalam, Indonesia, Malaysia and Vietnam made me realize that travelling to other places goes beyond tourist maps, beautiful sceneries, and

traditional food. "Experience is the best teacher". The lessons that I gained will not be written in any other book but my own SSEAYP Life Book.

I learned to appreciate more the Japan and ASEAN culture and identity, the culture of interdependence and flexibility. It made me more inspired to influence my fellow Filipino youth to aim not only for self-development but for the betterment of the whole society.

**Singapore | PY's Life Onboard  
Ong Lixiang**

I believe in the motto- "Living for the moment". I welcome all activities on board Fuji Maru with anticipation. Club activities, National presentations by the contingents, discussions, solidarity group activities and homestays await me, allowing me to live life to the fullest! I love spending time with my new friends! I enjoyed every moment and every second of my day on board Fuji Maru. I am certain these special moments, unique experiences and friendships made will stay with me forever! There is only one word to describe it – AWESOME!!! Once a PY, always a PY!

**Thailand | National Presentation  
Thiti Jamkajornkeiat**

It is always exciting to experience "culture" from the insider's perspective. National presentation is a cultural show presented by youth from representative nations. It is a manifesto of what these youths want others to perceive their cultures. This year I am impressed by how each presentation were narrated. I saw a fusion of traditional and contemporary cultural artifacts. I saw rich and diverse cultures combined wonderfully. Indeed, I saw the power of youths spirit shown from their enthusiasm to exhibit their national pride whole heartedly.

**Vietnam | SG Activities  
Pham Thi Ngoc Quynh**

During SSEAYP 2011, one of the most exciting and interesting part is SG activities. All PYs were given this unique opportunity to join in different activities. I am from SG I and I am very proud of my SG flag, cheer and friends. Throughout those activities, we understood more about each other and learned how to work and play together effectively. Sometimes I felt exhausted but after all I can see many happy faces of our beloved PYs. We are now in one family that we called "SG spirit."
