

Moonshot R&D Program MEMORANDUM OF COOPERATION between JST&DUBAI FUTURE FOUNDATION(DFF)

MOC is made as of May 19, 2023 between JST and DFF.

■ Purpose

Promote demonstrations that take advantage of the multicultural character of the UAE and the multinational nature of Dubai International Airport, with 80 million people using the airport annually.

■ Cooperation details

- Demonstration of interactive avatars in the UAE (museums, art galleries, airports, etc.)
- Demonstration of alter ego robot cafés in the UAE (e.g. at airports).
- Demonstration of non-invasive brain-machine interface (BMI).
- UAE experiments are currently being coordinated by Ishiguro PM. Other PMs are expected to start working together from next year.

■ Examples of experiments planned for Ishiguro Project

Tourist guide at the Museum of the Future, Dubai. Japanese tourists experience the Dubai Museum of the Future by remotely controlling Cybernetic Avatars (robot avatars) from Japan.
