

ITO project

Development of Multi-lock Biopolymers Degradable in Ocean from Non-food Biomasses

Research Team 1: ★

Clarify polymer degradation mechanism

 Atsushi Takahara (Kyushu Univ.)
Hiroshi Ito (Yamagata Univ.)

 Chulalongcorn Univ. in Thailand

Research Team 2: ★

Synthesize polymers from non-food biomass

 Masami Kamigaito (Nagoya Univ.)

 CNRS in France

Output

- C. Winotapun, T.Makmoon, C.Aumnate, D.Thanomjitr, W.Rungseesantivanon and H.Ito, ACS Omega 2023, <https://doi.org/10.1021/acsomega.3c04671>, Publication Date:September 13, 2023
- T. Nishida, K. Satoh, M. Tamura, Y. Li, K. Tomishige, S. Caillol, V. Ladmiral, M. Vayer, F. Mahut, C. Sinturel, and M. Kamigaito, Polym. Chem., 12 (9), 1186-1198 (2021), etc.
