

YURA project

Insect-Based Sustainable Food Production Systems toward Global Food Security and Human Space Exploration Project

Counterparts/players

- US: Harvard University
All Things Bugs LLC (Dr. Aaron Dossey)
- Cambodia: ecologgie Inc.
- Vietnam: Vietnam Academy of Science & Technology (VAST) (Dr. Oanh TP Kim)
- Bangladesh: Sylhet Agricultural University (Dr. Md. Fuad Mondal)
- Laos
- Other in progress: Taiwan

Info collection on the ongoing Codex discussions on new food sources and production systems

Issues of collaboration

- Selection & domestication: crickets (e.g., thru. genomic analysis)
- Fish feed production: soldier flies (e.g., production methods)
- Feed production: termites (e.g., info collection on ecology and production)
- Standardization for edible insects
