EXPORT PROCEDURE直
部
二
課1. Application to Prepare for Export

a. When the Imperial Japanese Government or its official agency has reasonable assurance that a supply of a specific material is available for export in a given period, the Imperial Japanese Government or its officially authorized foreign trade agency will submit an Application to Prepare for Export (Specimen Form IE 100) to General Headquarters, Supreme Commander for the Allied Powers. Each application will be submitted in English and sextuplicate. One application will cover not only stocks of the material currently on hand and ready for shipment, but also quantities which can be available for shipment in the next few months. (See attachments 2 and 3: Specimen Form of Application to Prepare for Export; and Instructions for Submitting Application.)

b. After processing by General Headquarters, Supreme Commander for the Allied Powers, two (2) copies of the validated application will be returned to the Imperial Japanese Government or its official agency. If the application is denied, the Imperial Japanese Government or its official agency will be notified.

c. When General Headquarters, Supreme Commander for the Allied Powers wishes the export of material for which the Japanese Government has not submitted an Application to Prepare for Export the necessary directive will be issued by General Headquarters, Supreme Commander for the Allied Powers.

2. Application to Deliver for Export

a. When the Imperial Japanese Government or its official agency has material actually ready for export, covered either by an approved Application to Prepare for Export or a directive, it will submit eight (8) copies of an Application to Deliver for Export (Specimen Form IE 200) (See attachments 4 and 5: Application to Deliver for Export and Instructions for Submitting Application). Several such applications may be submitted within the limits of one approved Application to Prepare for Export as quantities within the approved total are ready for shipment.

In most cases, the time for submitting the Application to Deliver for Export will be left to the Imperial Japanese Government or its officially authorized agency. However, in cases which require close coordination with shipping authorities, or in cases involving undue delay in delivery of material covered by an approved Application to Prepare for Export, a Directive will be issued by General Headquarters, Supreme Commander for the Allied Powers, requiring submission of an Application to Deliver for Export.

b. Each application will be processed by General Headquarters, Supreme Commander for the Allied Powers. Four (4) copies of the validated application will be returned to the Imperial Japanese Government or its official agency. Validation will include information as to country of destination, delivery of material, transfer of title, and time and place of shipment. If the application is denied the Imperial Japanese Government or its official agency will be notified.

3. On receipt of the validated copies of the Application to Deliver for Export, the Imperial Japanese Government or its officially authorized agency

b. Deliver four (4) copies of the validated Application to Deliver for Export to the United States War Shipping Administration at the port of shipment and receive back from the United States War Shipping Administration three (3) copies certified by them.

S. A., to U. S. Commercial Company or its designee at U. S. port of entry as indicated in the validation of the Application to Deliver for Export. In the case of shipments to another country, the envelope will be addressed to the appropriate government agency. Obtain from the ship's master a statement that this envelope has been received.

e. Return immediately to the Eighth Army for transmittal to General Headquarters, Supreme Commander for the Allied Powers, the following documents:

- One (1) copy of the certified Application to Deliver for Export as received from the port authority.

as indicated in the validation of the Application to Deliver for Export. In the case of shipments to Korea they shall be addressed to COMGEN USAFIK or his indicated designee. Documents may be returned directly to General Headquarters, Supreme Commander for the Allied Powers, rather than to the Eighth Army for transmittal to General Headquarters, Supreme Commander for the Allied Powers. Otherwise, the procedure in 3a -- 3e above shall be followed. In the case of all shipments to China or Korea in vessels of Japanese registry, the Imperial Japanese Government or its agent will obtain from consignee at the port of destination two (2) copies of the cargo receipt, which shall be returned to General Headquarters, Supreme Commander for the Allied Powers.

4. General Headquarters, Supreme Commander for the Allied Powers, will provide a receipt for the bill of sale and other shipping documents and will transmit it to the Imperial Japanese Government or its official agency as soon as feasible after receipt of documents.

INSTRUCTIONS FOR SUBMITTING SPECIMEN FORM IE 100 APPLICATION TO PREPARE FOR EXPORT

1. Six (6) copies of this application in English shall be submitted by the Imperial Japanese Government or its officially authorized agency covering a specific quantity of a specific commodity which one manufacturer or supplier has available for export or plans to have available for export on specific dates in the near future.

2. An application shall cover only a single "article" as listed in the classification used by the Japanese Department of Finance in its publication in English of monthly and annual returns of the Foreign Trade of Japan, except that a single application may cover all sizes of a single article, even though they are listed separately in these returns. For example, all sizes of cotton yarn may be included in one application, although separate classifications are established by the Japanese Department of Finance for "up to No. 20; up to No. 40; up to No. 60; up to No. 80". With this exception, a separate Application to Prepare for Export must be filed for each "article".

3. Do not fill in the blocks marked "For official SCAP use".

INSTRUCTIONS FOR SPECIFIC BLOCKS OF FORM IE 100

1. Block 1:

a. Commodity - Indicate, for identification purposes, the "article" description as included in the listing of Japanese Department of Finance monthly and annual returns on the Foreign Trade of Japan.

b. Commodity Group - Indicate the "article" group from the same classification. For example: Skins, Hairs, Horns, Tusks and manufactures thereof.

2. Block 5:

Manufacturer or Supplier - List the name and address of supplier or manufacturer from whom the Imperial Japanese Government or its authorized agency will obtain the material covered by this application. If the supplier is only acting as agent, indicate also the name and address of the principal.

If the commodity covered by the application is at more than one location, indicate all locations and cross reference to question twelve (12) to give specific types and grades of commodity and the quantity at each location.

5. Block 8:

Proposed Port of Shipment - Give the port from which it would seem desirable to ship the commodity. If more than one, give all ports and indicate type of commodity and quantity proposed for shipment from each port. (The

TO : Liquidation Branch, Finance Division, Economic and Scientific Section, General Headquarters, Tokyo.

SUBJECT: Closed Institution - Parcels lodged with the Deutsche Bank fuer Ostasien, Tokyo Branch, for safe-keeping.

1. In respect to parcels lodged with this Bank for safe-keeping, a report dated the 8th December last, subject: - "Deutsche Bank fuer Ostasien," was transmitted to your office. The bulk of said parcels were removed from the Tokyo Office to the temporary office when it was erected at Miyanoshita, Hakone, in April, 1945, as a precautionary measure against damage from air-raids. However, with the ordering of the closure of said Bank, the aforementioned temporary Office was concurrently closed on the 30th September, 1945, and subsequently placed under the control of your Counter-Intelligence Corps.

2. Following the appointment of the Bank of Japan as liquidator of said Bank on 4th November, 1945, representatives of the Bank of Japan travelled to Miyanoshita on the 20th November, 1945, in company of Lieutenant Pollen and Special Agent Miller of the Tokyo Detachment, C.I.C., to inspect items remaining on the aforementioned temporary office premises, pursuant to instructions to preserve, safe-guard, etc., books records, etc., (Section 10 of your Memorandum dated 4th November, 1945).

All important items had already been removed to the offices of the C.I.C. at the Gora Hotel, Hakone, by their hands, and such items transportable in a motor vehicle were transferred from the C.I.C. to the Bank of Japan and placed in the Head Office vault under the control of the Liquidation Office.

On the return trip to Tokyo, our representative stopped at the Hq., 81st C.I.C. Metropolitan Unit No. 81, APO 503, Yokohama, to take custody of some items said to belong to said closed institution, and these items were placed in the aforementioned vault at the same time. A report in respect to such items was submitted to you on the 24th November, 1945, as an information copy.

In respect to the parcels lodged for safe-keeping, the contents of some such parcels are unknown, while some had been opened up by the C.I.C. for the purpose of examining their contents. In the

circumstances, we were unable to ascertain whether such parcels corresponded to those lodged for safe-keeping or not. However, as has been reported already, such items have been received for safe-keeping on one lot and removed to the aforementioned vault at the Bank of Japan.

3. As a result of a subsequent examination of the aforementioned items, it was found that, of the items received from the Hq., 81st C.I.C. Metropolitan Unit No. 81, APO 503, Yokohama (as shown in our letter dated 24th November, 1945), the following items belong to the Deutsche Bank fuer Ostasien:-

Exhibit V.

Promissory notes totalling ¥24,500,000/-
Certificate of deposit 1,200,000/-

Exhibit VIII.

14 warehouse receipts

Of the remaining items shown on the aforementioned report, some may or may not belong to the Bank as some were sealed and contents unknown and all had already been opened up by C.I.C., but on the basis of the name-cards found inside the parcels, the following names may probably represent their respective owners. Further, we have been unable to ascertain the circumstances under which these parcels were left on said Bank premises.

In view of the above information, we propose that all such items not belonging to the Deutsche Bank fuer Ostasien should be removed from our hands to the proper authority, as these items have no bearing on the liquidation work. In order to ascertain the rightful owners of these items, we request any information which you can furnish so that immediate disposal of these items may be made.

Memorandum for the Imperial Japanese Government, file AG 370.05 (16 Mar 46)GC, (SCAPIN-822), dated 16 March 1946, subject: "Repatriation."

General Policies Governing Repatriation of Japanese Nationals in Formerly Japanese Occupied Territory, and Non-Japanese* from Japan

The following policies will govern repatriation of Japanese nationals in formerly Japanese occupied territory, and non-Japanese from Japan.*

1. Maximum utilization will be made of Japanese naval and merchant shipping allocated for repatriation of Japanese nationals.
2. Japanese naval vessels and those Japanese merchant vessels, designed primarily for the transport of personnel and not required for inter-island or coastal passenger service, will be utilized for the repatriation of Japanese nationals.
3. Personnel to be repatriated will not be transported on cargo vessels to the extent that the essential cargo is displaced. Repatriates will be transported on cargo vessels destined only for authorized repatriation ports (see paragraph 2a, Annex II).
4. The Imperial Japanese Government will operate, man, victual and supply Japanese-manned shipping used for repatriation to the maximum practicable extent. In case of emergency, fuel, food, medical supplies and material repairs may be obtained from US Army or Navy sources, or at foreign ports from foreign government sources, by memorandum receipt signed by the master of the vessel concerned (see Annex IV).
5. First priority will be granted to the movement of Japanese military and naval personnel, and second priority to the movement of Japanese civilians. Exception may be made by the appropriate Allied area commanders as deemed necessary for areas under their control.
6. Only personnel being repatriated to and from Japan under the Japanese repatriation program or such others as may be authorized in special cases by the Supreme Commander for the Allied Powers will be transported on repatriation vessels.

* The term "non-Japanese" as used in this annex and throughout this memorandum includes only Chinese, Formosans, Koreans and Ryukyans.

BASIC: Annex I to Memo for IJG, file AG 370.05 (16 Mar 46)GC, (SCAPIN-822), dated 16 March 1946, subject: "Repatriation."

8. All Japanese personnel will be disarmed prior to return to Japan proper.

9. In the evacuation of Japanese nationals from areas under the control of the Commander-in-Chief, United States Army Forces, Pacific, and the Commander-in-Chief, Pacific Ocean Areas, the Supreme Commander for the Allied Powers will prescribe the percentage of shipping, allocated exclusively for repatriation purposes, to be employed in servicing the respective areas. Priorities for the evacuation of specific areas will be established as necessary.
