BASIC: Memo GHQ, SCAP, file AG 435, subject: "Request for Use of Yen Bank Accounts by German Concerns for the Purpose of Paying Salaries and Incidental Expenses," to IJG.

3. This memorandum shall not be construed to release funds from the blocking provisions of any other memorandum issued by General Headquarters, Supreme Commander for the Allied Powers, or any other ordinance promulgated by the Imperial Japanese Government.

4. All payments to individuals whose bank accounts are blocked will be made into such blocked accounts.

5. All payments will be made in accordance with the provisions of Ministry of Finance Ordinance No. 12 of 1946, subject: "Enforcement Regulation of the Emergency Financial Measures Imperial Ordinance," except that all salaries, bonuses, retiring allowances or compensation of any kind to individual employees will be made by restricted check.

6. Detailed reports as to the exact amounts paid under this authorization shall be submitted to General Headquarters, Supreme Commander for the Allied Powers, not later than two (2) weeks from the date of this directive.

MEMORANDUM FOR: THE IMPERIAL JAPANESE GOVERNMENT.

THROUGH : Central Liaison Office, Tokyo.

SUBJECT : Reparations Selections within the Soda Ash and Caustic Soda Industries.

1. The Imperial Japanese Government is notified that all plants, installations and facilities designated on the attached list are hereby taken into custody and control of the Supreme Commander for the Allied Powers.

2. This list designates plants subject to removal under the interim reparations program. These plants may be operated temporarily for the production of essential consumer goods in accordance with instructions from Commanding General, Eighth United States Army. In all cases whether or not operations are permitted to continue in the listed plants, such measures will be taken as are necessary to insure proper protection, maintenance and safeguarding of equipment.

3. There will be made available to the Commanding General, Eighth United States Army, all personnel, equipment and supplies deemed necessary by him for the establishment of proper custody, control and protective maintenance.

4. Within seventy-two (72) hours of the receipt of this memorandum, the Imperial Japanese Government will have qualified representatives report to the Commanding General, Eighth United States Army, to receive detailed instructions to accomplish the purpose of this memorandum.

5. Provisions of this memorandum shall not be construed to preclude immediate shut down and removal of specific plants that may be designated by subsequent memoranda.

SUPREME COMMANDER FOR THE ALLIED POWERS

AFO 500
13 August 1946

Information of General Application pertaining to Directive Number (SCAFIN-1129, file AG 387.6 (13 Aug 46) ESS/IN dtd 13 August 1946, subject: "Reparations Selections within the Soda Ash and Caustic Soda Industries."

1. With reference to memorandum Number (SCAFIN-1129), from the Supreme Commander for the Allied Powers to the Imperial Japanese Government, the following is published for the information of all concerned.

2. The purpose of issuing the attached letter to the Imperial Japanese Government and accompanying letter to the Commanding General, Eighth United States Army is to insure availability for interim reparations removals of listed facilities in the best possible condition.

3. Seized facilities should be permitted to operate in order to prevent any temporary disruption of the production of the important demand items which these plants can manufacture. However, plants which will remain under Japanese control have ample capacity for these products, and existing shortages result from the lack of raw materials. To avoid unnecessary transfer of materials between plants, the seized plants should be allowed to process existing stocks of raw materials, but should not obtain new raw materials except in very exceptional cases. It is estimated that all designated plants should be shut down within three months.

4. Removal of factory facilities not a part of the Soda Ash and Caustic Soda Industries should not be discouraged, as this may be required as part of the shift away from use of the seized plants.

5. It is emphasized that when any of this equipment is shut down the Japanese should be required to take special precautions to avoid damage which may result from corrosive action of some of the material handled in the equipment. The units should be thoroughly purged of all corrosive gases before disassembly, and corrosive materials should be carefully removed before packaging of the equipment.

6. A letter of command instructions pertaining to the execution of the subject memorandum follows through command channels.

- 1. The Imperial Japanese Government is notified that all iron and steel producing plants on the attached list are hereby taken into custody and control of the Supreme Commander for the Allied Powers.
- 2. This list designates plants subject to removal under the interim reparations program and is not to be construed as complete or final. These plants will be shut down, or will be permitted to continue operation on completion of orders now unfilled, in accordance with instruction from Commanding General, Eighth United States Army. In all cases, whether or not operations are permitted to continue in the listed plants, such measures will be taken as are necessary to insure proper protection, maintenance, and safe-guarding of equipment.
- 3. There will be made available to the Commanding General, Eighth United States Army, all personnel, equipment and supplies deemed necessary by him for the establishment of proper custody, control and protective maintenance.
- 4. Within seventy-two (72) hours of the receipt of this memorandum, the Imperial Japanese Government will have qualified representatives report to the Commanding General, Eighth United States Army, to receive detailed instructions to accomplish the purpose of this memorandum.
- 5. Provisions of this memorandum shall not be construed to preclude immediate shut down and removal of specific plants that may be designated by subsequent memoranda.

Information of General application pertaining to Directive Number (SCAFIN-1130), file AG 387.6 (13 Aug 46) ESS/IN dtd 13 Aug 46 subject: "Reparations Selections within the Iron and Steel Industry."

1. With reference to memorandum Number (SCAFIN-1130), from the Supreme Commander for the Allied Powers to the Imperial Japanese Government, the following is published for the information of all concerned.

2. The purpose in issuing the attached letter to the Imperial Japanese Government and accompanying letter to the Commanding General, Eighth United States Army, is to insure availability for interim reparations removals of listed facilities in best possible condition.

3. The facilities within listed plants which may be considered suitable for reparations are all major units and auxiliary equipment except those units composed principally of masonry and which are not sufficiently enclosed in metal framework as to prevent loosening of the masonry during transportation to another site.

4. It is not contemplated that buildings which are part of plants taken under custody and control will be used for reparations or destroyed, except in special cases. Such cases may be those in which part of the building frame forms an overhead crane-way and the steel building skeleton can be easily dismantled for resetting. If any building, other than those likely to be dismantled, is requested by the Japanese and it can be used by them without jeopardizing the primary mission of safeguarding reparations equipment, it may be released to them.

5. The primary reason for allowing continued production in any of the listed plants is to meet the needs of the Occupation Forces and essential Civilian Economy. Insofar as possible all production in these plants should be arranged so as to reduce inventories of raw materials and semi-finished products to practicable working minimums so that shut-downs, when necessary for reparations removal, will have the minimum disruptive effect.

6. It is contemplated that the Japanese will furnish personnel and material required by you; that custodial personnel selected will be individuals previously employed in each factory who are familiar with its equipment and requirements for maintenance.

7. It is expected that the Japanese will perform proper maintenance of equipment to preserve it in good condition. Such maintenance is to include sufficient oiling and greasing, with necessary materials to be furnished by the Japanese Government when not available at the plant.

8. It is expected that a system will be established for spotchecking each installation periodically. When corrective action can be accomplished locally by conference it should be done. In cases of wilful violation or neglect, immediate report should be made through military channels.

MEMORANDUM FOR: THE IMPERIAL JAPANESE GOVERNMENT

THROUGH : Central Liaison Office, Tokyo.

SUBJECT : Reparations Selections of Steam-Electric Power Generating Plants.

1. The Imperial Japanese Government is notified that all steam-electric generating plants designated on the attached list are hereby taken into custody and control of the Supreme Commander for the Allied Powers.
2. This list designates plants subject to removal under the interim reparations program.
3. There will be made available to the Commanding General, Eighth United States Army, all personnel, equipment and supplies deemed necessary by him for the establishment of proper custody, control and protective maintenance.
4. Within seventy-two (72) hours of the time of receipt of this memorandum, the Imperial Japanese Government will have qualified representatives report to the Commanding General, Eighth United States Army, to receive detailed instructions to accomplish the purpose of this memorandum.
5. The Imperial Japanese Government will take action to stop immediately all removals of machinery and equipment from the plants, installations and facilities. No removals will be permitted without specific authority from the Commanding General, Eighth United States Army. Any equipment that has already been removed and is essential to the functioning of the plant must be returned or replaced without delay. Instructions for inventories of machinery and equipment to be made within the listed installations will be issued at a later date. All records and technical data pertaining to the machinery and equipment, including, manufacturers instruction books, arrangement drawings, detailed drawings, and operating instructions must be preserved and made readily accessible.

BASIC: Memo to IJG, AG 387.6(13 Aug 46)ESS/IN, (SCAPIN-1131), Subject: "Reparations Selections of Steam-Electric Power Generating Plants," dated 13 August 1946.

6. Within 60 days of the date of this memorandum, each plant on the attached list must be prepared and held ready for immediate shut-down, if so ordered by General Headquarters, Supreme Commander for the Allied Powers. The Imperial Japanese Government will promptly take all steps necessary to rearrange the dispatching of power load in the area served by these plants so that the essential power demands of the areas will not be dependent on them. If specific plants cannot be brought to this state of readiness within the 60 day period, a written report covering each plant shall be submitted to the Commanding General, Eighth United States Army within 30 days from the date of this directive, outlining the difficulties involved including a proposed plan for rearranging the load distribution and the date on which this readiness will be accomplished.

7. In plants where construction is not complete, work will be continued until adequate protection has been provided for the machinery and equipment already installed. Wherever possible, you will endeavor to expedite and accept delivery of machinery or equipment needed to complete the plant at the site of construction. A report on undelivered purchase orders required to complete the plant will be prepared for submission on request.

8. Provisions of this memorandum shall not be construed to preclude immediate shut down and removal of specific plants that may be designated by subsequent memoranda.

GENERAL HEADQUARTERS
SUPREME COMMANDER FOR THE ALLIED POWERS APO 500

13 August 1946

Information of General Application pertaining to Directive number (SCAFIN 1131), file AG 387.6 (13 Aug 46) ESS/IN dtd 13 August 1946, subject: "Reparations Selections of Steam-Electric Power Generating Plants."

1. With reference to memorandum Number (SCAFIN 1131), from the Supreme Commander for the Allied Powers to the Imperial Japanese Government, the following is published for the information of all concerned.
2. The purpose of issuing the referenced letter to the Japanese Imperial Government and the related letter to the Commanding General, Eighth United States Army, is to initiate the action necessary to prepare for ultimate removal of the subject steam-electric generating plants for interim reparations. Until such time as these plants are actually removed they must be properly maintained to prevent deterioration of the equipment.
3. The facilities of these power plants includes not only the equipment installed in the buildings but also yard equipment such as coal handling facilities, outdoor switchgear and transformers.
4. Removal of steam-electric power generating equipment cannot be accomplished without allowing an interval of time during which all necessary arrangements can be made to redistribute the power loads. This is to assure uninterrupted supply of electric power for essential demand without depending on the generating plants which have been selected for removal. Sixty days has been allowed for the readjustment period, although, in some cases, longer time may be necessary.
5. Essential electric power demand as used in the memorandum is defined as that which is required to supply the needs of the occupation forces and to supply normal civilian demands that affect the maintenance of the minimum economic welfare of the people.
6. Since the beginning of the occupation the Japanese Government and the Generating Companies have encouraged widespread use of electricity for the expressed purpose of utilizing surplus electric power to overcome shortages of coal and other fuels. They have encouraged, without any apparent limitation or plan, the installation of many inefficient make-shift salt manufacturing plants utilizing electric power for production of salt from sea-water. Many factories have electrified coal burning boilers and other industrial heating apparatus, while neither the Government authorities nor the operating companies took precautions to properly regulate such practices. Unlimited use of electricity for household cooking and heating has been permitted even where such practices were contrary to existing rules for controlling unsafe and disturbing uses of electric power. Such demands are abnormal when considering essential demands from a long range economic standpoint. Any practical use of surplus hydro-electric power to overcome shortages of other fuels can be justified. When hydro-electric power output is reduced during dry seasons, the use of steam generating facilities to supply electric power for the abnormal demands, that have developed since the beginning of the occupation, is not justified.

BASIC: Information of General Application pertaining to Directive Number (SCAFIN 1131), file AG 387.6 (13 Aug 46) ESS/IN.

These abnormal demands must not be interpreted as essential demand to justify indefinite need for or permanent retention of the subject power plants.

7. The directive does not intend to restrict the continued operations of these plants. The plants may continue to operate if necessary, however, when the actual date of removal has been decided, the plant must be ready for shut-down. By that time, the Japanese should have made arrangements to insure, by proper load dispatching, at all seasons the distribution of sufficient power to satisfy essential demands. The limited period of 60 days has been established by the directive in order that the Japanese will take direct and effective action to place the plants in a state of readiness for shutdown by the earliest possible date.

8. It is contemplated that the Japanese will furnish personnel and material required by you; that custodial personnel selected will be individuals previously employed in each factory who are familiar with its equipment and requirements for maintenance.

9. It is expected that the Japanese will perform proper maintenance of equipment to preserve it in good condition. Such maintenance is to include sufficient oiling and greasing, with necessary materials to be furnished by the Japanese Government, when not available at the plant.

10. It is expected that a system will be established for spot checking each installation periodically. When corrective action can be accomplished locally by conference, it should be done. In cases of wilful violation or neglect, immediate report should be made through military channels.

11. Of special importance is the preservation of all records pertaining to the construction and operation of these plants. Such things as foundation plans, arrangement drawings, detail drawings of the individual pieces of equipment, manufacturer's instruction books, operating instructions, records of past operation, and design data for the plant as a whole, will be invaluable during the process of dismantling and reerecting the plants. The same will be true of special instruments and tools which are required for operation and maintenance. The items of this nature located at the plants must be considered as a part of the facilities which are to be taken into custody and preserved.

12. Surveillance will be necessary to discourage replacement of experienced operating personnel with subsequent possible damage to equipment occasioned by personnel unfamiliar with the equipment.

13. A letter of command instructions pertaining to the execution of the subject memorandum follows through command channels.

MEMORANDUM FOR: THE IMPERIAL JAPANESE GOVERNMENT.

THROUGH : Central Liaison Office, Tokyo.

SUBJECT : Reparations Selections Within the Sulfuric Acid Industry.

1. The Imperial Japanese Government is notified that all contact sulfuric acid sets in plants designated on the attached list are hereby taken into custody and control of the Supreme Commander for the Allied Powers.

2. a. This list designates equipment subject to removal under the interim reparations program. This equipment may be operated temporarily for the production of essential consumer goods, and all necessary measures will be taken to prevent discrimination against the plants concerned in allocations of materials, working capital or labor. In all cases, whether or not the designated equipment is operated, such measures will be taken as are necessary to insure its proper protection, maintenance and safe-guarding.

b. In two plants removal of contact sulfuric acid sets is contemplated as follows:

- (1) Nissin Kagaku, Niihama plant, removal of 2 sets.
- (2) Toyo Koatsu, Sunagawa Plant, removal of 1 set.

The entire contact sulfuric capacity of these two factories is to be taken into custody and control, but removal of more sets than indicated is not planned.

3. There will be made available to the Commanding General, Eighth United States Army, all personnel, equipment and supplies deemed necessary by him for the establishment of proper custody, control and protective maintenance.

4. Within seventy-two (72) hours of the receipt of this memorandum the Imperial Japanese Government will have qualified representatives report to the Commanding General, Eighth United States Army to receive detailed instructions to accomplish the purpose of this memorandum.

BASIC: Ltr, GHQ, SCAP, file AG 387.6 (13 Aug 46) ESS/IN, dtd 13 August 1946, subject: "Reparations Selections Within the Sulfuric Acid Industry."

5. Provisions of this memorandum shall not be construed to preclude immediate shut down and removal of specific plants that may be designated by subsequent memoranda.

Information of General Application pertaining to Directive Number (SCAPIN-1132), file AG 387.6(13 Aug 46)ESS/IN dtd 13 Aug 1946, subject: "Reparations Selections within the Sulfuric Acid Industry."

- With reference to Memorandum Number (SCAPIN-1132), from the Supreme Commander for the Allied Powers to the Imperial Japanese Government, the following is published for the information of all concerned.
- The purpose of issuing the attached letter to the Imperial Japanese Government and accompanying letter to the Commanding General, Eighth United States Army is to insure availability for interim reparations removals of listed facilities in the best possible condition.
- Seized facilities should be permitted to operate in order to prevent any temporary disruption of the production of such important items as fertilizers, drugs and artificial sweeteners, however, a gradual shift must occur in the use of sulfuric acid facilities, from designated units to equipment which the Japanese will retain. Some of the latter equipment requires repair, and such repair should be encouraged, but not when it is of such extensive a nature that it constitutes virtual rebuilding. It is contemplated that detailed instructions covering the shift from seized to retained plants, and especially the degree of rebuilding to be permitted, will be issued by this headquarters at a later date. It is estimated that the length of time required to take seized plants out of operation will average about three months, but this will vary considerably from plant to plant depending on stocks of raw materials on hand, local demands for the product, and similar factors.
- Removal of factory facilities not a part of the contact sulfuric acid sets should not be discouraged, as this may be required as part of the shift away from use of the seized sets.
- It is emphasized that when any of this equipment is shutdown the Japanese should be required to take special precautions to avoid damage which may result from corrosive action of some of the material handled in the equipment. The units should be thoroughly purged of all corrosive gases before disassembly, and corrosive materials should be carefully removed before packaging of the equipment.
- In two factories (Nissin Kagaku, Mihama factory and Toyo Koatsu, Sunagawa factory) removal of only part of the contact sulfuric acid capacity is contemplated. Each of these factories will be allowed to retain sufficient acid capacity to maintain a balanced plant at a capacity level to be announced later by this headquarters. In those plants, all contact sets should be taken into custody until such time as the specific sets to be removed are designated.

7. A letter of command instructions pertaining to the execution of the subject memorandum follows through command channels.

MEMORANDUM FOR: THE IMPERIAL JAPANESE GOVERNMENT.
THROUGH : Central Liaison Office, Tokyo.
SUBJECT : Reparations Selections within the Machine Tool Industry.

1. The Imperial Japanese Government is notified that all machine tool manufacturing plants on the attached list are hereby taken into custody and control of the Supreme Commander for the Allied Powers.

2. This list designates plants subject to removal under the interim reparations program. These plants will be shut down, or will be permitted to continue operation to complete machine tools under current manufacture or in the production of consumer goods, in accordance with instructions from the Commanding General, Eighth United States Army. In all cases whether or not operations are permitted to continue in the listed plants, such measures will be taken as are necessary to insure proper protection, maintenance and safeguarding of equipment.

3. There will be made available to the Commanding General, Eighth United States Army, all personnel, equipment and supplies deemed necessary by him for the establishment of proper custody, control, and protective maintenance.

4. Within seventy-two (72) hours of the receipt of this memorandum the Imperial Japanese Government will have qualified representatives report to the Commanding General, Eighth United States Army, to receive detailed instructions to accomplish the purpose of this memorandum.

GENERAL HEADQUARTERS
SUPREME COMMANDER FOR THE ALLIED POWERS

AFO 500
13 August 1946

Information of General Application pertaining to Directive Number
(SCAFIN- 1133) file AG 387.6 (13 Aug 46) ESS/IN dtd 13 Aug 46 , subject:
"Reparations Selections within the Machine Tool Industry."

1. With reference to memorandum Number (SCAFIN-1133), from the Supreme Commander for the Allied Powers to the Imperial Japanese Government, the following is published for the information of all concerned.
2. The purpose in issuing the attached letter to the Imperial Japanese Government and accompanying letter to the Commanding General, Eighth United States Army is to insure availability for interim reparations removals of listed facilities in the best possible condition.
3. The items within listed factories and installations which may be considered suitable for reparations are such things as machine tools, production machinery, heat treating equipment, furnaces, cranes and conveyors, precision testing and research equipment and power equipment. Expendable parts such as special dies, jigs and fixtures, bolts, nuts and small parts, etc., if available and when practicable should remain with the factory. No definite classification can be made but the use of good judgement in preserving for reparations removal those items suitable for the purpose and in allowing the Japanese to use that portion of the remainder which will contribute to needed civilian production is the end in view.
4. It is not contemplated that buildings which are part of factories taken under custody and control will be used for reparations or destroyed except in special cases. Such cases may be those where part of the building frame forms a track for overhead cranes and the steel building skeleton can be easily dismantled for resetting. If any building, other than those likely to be dismantled, is requested by the Japanese and it can be used by them without jeopardizing the primary mission of safeguarding reparations materials it may be released to them.
5. This directive stops all manufacture of new machine tools in listed plants, though permitting completion of units for which major component parts already are manufactured.
6. The primary reason for allowing continued production in any of the listed factories is to meet the needs of the occupation forces and essential civilian economy. Insofar as possible all production in these factories should be arranged so that shutdown, when necessary for reparations removal, will have the minimum disruptive effect on the overall civilian economy.
7. It is contemplated that the Japanese will furnish personnel and material required by you; that custodial personnel selected will be individuals previously employed in each factory who are familiar with its equipment and requirements for maintenance.

私人所有軍需工場之賠償。為保管理命令之件

BASIC: Information of General application pertaining to Directive Number (SCAFIN - 1133) , file AG 387.6 (13 Aug 46) ESS/IV.

8. It is expected that the Japanese will perform proper maintenance of equipment to preserve it in good condition. Such maintenance is to include sufficient oiling and greasing, with necessary materials to be furnished by the Japanese Government, when not available.

9. It is expected that a system will be established for spot-checking each installation periodically. When corrective action can be accomplished locally by conference it should be done. In cases of wilful violation or neglect, immediate report should be made through military channels.

10. A letter of command instructions pertaining to the execution of the subject memorandum follows through command channels.

SUPREME COMMANDER FOR THE ALLIED POWERS

AFD 500
13 August 1946

AG 387.6 (13 Aug 46) ESS/IN
(SCAFIN - 1134)

MEMORANDUM FOR: THE IMPERIAL JAPANESE GOVERNMENT.

THROUGH : Central Liaison Office, Tokyo.

SUBJECT : Reparations Selections Within Privately-Owned Munitions Plants.

1. The Imperial Japanese Government is notified that all munitions plants on the attached list are hereby taken into custody and control of the Supreme Commander for the Allied Powers.

2. This list designates plants subject to removal under the interim reparations program. Pending further instructions they may continue operations if they are producing items necessary to the civilian economy, in accordance with instructions from the Commanding General, Eighth United States Army. In all cases, whether or not operations continue in listed plants, you will take such measures as are necessary to insure proper protection, maintenance and safeguarding of equipment.

3. You will make available to the Commanding General, Eighth United States Army, all personnel, equipment and supplies deemed necessary by him for the establishment of proper custody, control and protective maintenance.

4. Within seventy-two (72) hours of the receipt of this memorandum the Imperial Japanese Government will have qualified representatives report to the Commanding General, Eighth United States Army, to receive detailed instructions to accomplish the purpose of this memorandum.

5. Provisions of this memorandum shall not be construed to preclude immediate shut down and removal of specific plants that may be designated by subsequent memoranda.

FOR THE SUPREME COMMANDER:

A. J. Rehe
JOHN B. COOLEY
Colonel, AGD

GENERAL HEADQUARTERS
SUPREME COMMANDER FOR THE ALLIED POWERS

Information of General Application pertaining to Directive Number (SCAPIN-1134) file AG 387.6 (13 Aug 46) ESS/IN dated 13 August 1946 Subject: "Reparations Selections of privately owned Munitions Plants."

AFO 500
13 August 1946

AG 387.6 (13 Aug 46) ESS/IN
(SCAPIN - 1135)

1. With reference to Memorandum Number (SCAPIN-1134), from the Supreme Commander for the Allied Powers to the Imperial Japanese Government, the following is published for the information of all concerned.

2. The purpose in issuing the attached letter to the Imperial Japanese Government and accompanying letter to the Commanding General, Eighth United States Army, is to insure availability for interim reparations removals of listed facilities in the best possible condition.

3. The same standards will be adhered to in preserving these facilities as in other plants heretofore listed for reparations.

4. All machinery, equipment, and accessories, which by virtue of initial design, construction, or major structural change, are, as individual items, special purpose in nature and functionally limited to use in connection with the manufacture of equipment or supplies for war or warlike purposes, will be held at locations you specify, pending further instructions concerning their disposition.

5. The closing down of listed factories is not required by this directive. Insofar as possible all production in these factories should be arranged so that shut-down, when necessary for reparations removal, will have the minimum disruptive effect on the overall civilian economy.

6. It is contemplated that the Japanese will furnish personnel and material required by you; that they will use, for custodial personnel, individuals previously employed in each factory who are familiar with its layout and requirement for maintenance.

7. It is expected that the Japanese will perform proper maintenance of equipment to preserve it in good condition. Such maintenance is to include sufficient oiling and greasing with necessary materials to be furnished by the Japanese Government when not available at any plants.

8. It is expected that a system will be established for spotchecking each installation periodically. When corrective action can be accomplished locally by explanation it should be done. In cases of wilful violation or neglect immediate report should be made through military channels for corrective action.

9. A letter of command instructions pertaining to the execution of the subject memorandum follows through command channels.

MEMORANDUM FOR: IMPERIAL JAPANESE GOVERNMENT.

THROUGH : Central Liaison Office, Tokyo.

SUBJECT : Reparations Selections Within the Shipbuilding Industry.

1. The Imperial Japanese Government is notified that all privately-owned shipyards and Japanese naval shipyards on the attached list are hereby taken into custody and control of the Supreme Commander for the Allied Powers.

2. This list designates the shipyards subject to removal under the interim reparations program and is not to be construed as complete or final. The present program for construction and repair of vessels in listed shipyards will be continued in accordance with existing instructions. In all cases, whether or not operations are permitted to continue in the listed shipyards, such measures will be taken as are necessary to insure proper protection, maintenance and safeguarding of equipment.

3. There will be made available to the Commanding General, Eighth United States Army, and the Commander Naval Activities, Japan, all personnel, equipment and supplies deemed necessary by them for the establishment of proper custody, control and protective maintenance.

4. Within seventy-two (72) hours of the receipt of this memorandum the Imperial Japanese Government will have qualified representatives detailed to the Commanding General, Eighth United States Army, and the Commander Naval Activities, Japan, to receive detailed instructions to accomplish the purpose of this memorandum.

5. The Commander Naval Activities, Japan, will have custody of the Yokosuka Naval Yard, Kanagawa Prefecture. All other shipyards will be under the custody of the Commanding General, Eighth United States Army.

6. Provisions of this memorandum shall not be construed to preclude immediate shut-down and removal of specific plants that may be designated by subsequent memoranda.

GENERAL HEADQUARTERS
SUPREME COMMANDER FOR THE ALLIED POWERS APO 500
13 August 1946

Information of General Application pertaining to Directive Number
(SCAPIN - 1135), file AG 387.6 (13 Aug 46) ESS/IN dated 13 August 1946 ,
subject: "Reparations Selections within the Shipbuilding Industry."

1. With reference to memorandum number (SCAPIN 1135), for the Supreme Commander for the Allied Powers to the Imperial Japanese Government, the following is published for all concerned.

2. The purpose in issuing the attached letter to the Imperial Japanese Government and accompanying letter to the Commanding General, Eighth United States Army, and Commander Naval Activities, Japan, is to insure availability of facilities in listed Shipyards in best possible condition for interim reparations removals.

3. The facilities within listed plants which may be considered suitable for reparations are all major units and auxiliary equipment except those units composed principally of masonry and which are not sufficiently enclosed in metal framework as to prevent loosening of the masonry during transportation to another site. This problem will arise in the transportation of brass and iron foundries within the shipyard.

4. It is not contemplated that buildings which are part of Shipyards taken under custody and control will be used for reparations or destroyed, except in special cases. Such cases may be those in which part of the building frame forms an overhead craneway and the steel building skeleton can be easily dismantled for resetting. If any building, other than those likely to be dismantled, is requested by the Japanese and it can be used by them without jeopardizing the primary mission of safeguarding reparations equipment it may be released to them.

5. The primary reason for allowing continued production in any of the listed Shipyards is to meet the needs of the Occupation Forces and Civilian Economy. Insofar as possible all production and repair work in these shipyards should be arranged so as to reduce inventories of steel plates, raw materials, and other Shipbuilding materials to practicable working minimums so that shutdowns, when necessary for reparations removal will have the minimum disruptive effect on the overall civilian economy.

6. It is contemplated that the Japanese will furnish personnel and material required by you; that custodial personnel selected will be individuals previously employed in each Shipyard who are familiar with its equipment and requirements for maintenance.

7. It is expected that the Japanese will perform proper maintenance of equipment to preserve it in good condition. Such maintenance of equipment is to include sufficient oiling and greasing with necessary materials to be furnished by the Japanese Government when not available at the Shipyards.

MEMORANDUM FOR: THE IMPERIAL JAPANESE GOVERNMENT.

THROUGH : Central Liaison Office, Tokyo.
SUBJECT : Reparations Selections Within the Precision Bearing Industry.

1. The Imperial Japanese Government is notified that all precision bearing plants on the attached list are hereby taken into custody and control of the Supreme Commander for the Allied Powers.
2. This list designates plants subject to removal under the interim reparations program. Plants selected for reparations may continue to operate, but will be advised that 30 days following the publication of this directive they are subject to removal without advance notice. In all cases whether or not operations are permitted to continue in listed plants such measures will be taken as are necessary to insure proper protection, maintenance and safeguarding of equipment.
3. You will make available to the Commanding General, Eighth United States Army, all personnel, equipment and supplies deemed necessary by him for the establishment of proper custody, control and protective maintenance.
4. Within seventy-two (72) hours of the receipt of this memorandum the Imperial Japanese Government will have qualified representatives report to the Commanding General, Eighth United States Army to receive detailed instructions to accomplish the purpose of this memorandum.

SUBJECT : Shipment of Coal to Korea.

1. References Memoranda for the Imperial Japanese Government from General Headquarters, Supreme Commander for the Allied Powers:

a. File AG 465.5 (26 Jun 46)GD, (SCAPIN 1565-A), subject: "Coal Shipments".

b. File AG 465.5 (26 Jul 46)ESS/FT, (SCAPIN 1836-A), subject: "Shipment of Coal to Korea."

2. It is directed that immediate steps be taken to ship to Korea 60,000 tons of coal during the month of August.

3. Backlog of tonnage accruing as of directives referred to in paragraphs 1 a and b above will not be shipped.

4. The following reports will be submitted to General Headquarters, Supreme Commander for the Allied Powers, Attention: Economic and Scientific Section, Foreign Trade Division, AFO 500.

a. Forward schedule covering proposed shipments for August.

b. Weekly report of shipments (two (2) copies), to be submitted within two (2) days after the close of each weekly period.

5. This directive will supersede all previous directives for the Imperial Japanese Government covering shipment of coal to Korea.

6. Shipments will be clearly identified and consigned to Commanding General, XXIV Corps, Pusan, Korea. Quantitative receipts will be obtained from proper United States authorities in Korea and copies submitted to General Headquarters, Supreme Commander for the Allied Powers, Economic and Scientific Section, Foreign Trade Division, AFO 500.

APD 500
15 August 1946

MEMORANDUM FOR: THE IMPERIAL JAPANESE GOVERNMENT.

THROUGH : Central Liaison Office, Tokyo.

SUBJECT : Release of Subsistence Stocks.

1. The Imperial Japanese Government will take action and as-
sume responsibility as follows with regard to approximately 2,200
long tons of subsistence stocks being made available for future Jap-
anese consumption.

a. Accept delivery of approximately 2,200 long tons of
subsistence stocks at points designated by the Commanding General,
Eighth United States Army.

b. Furnish the Commanding General, Eighth United States
Army, with quantitative receipts for the stocks at points of de-
livery.

c. Store the stocks so that they are protected against
spoilage, pilferage, theft or other hazards and are under proper
custody at all times.

d. Ensure that no distribution is made of the stocks un-
til official authorization for release is given by the Supreme Com-
mander for the Allied Powers. This does not preclude processing or
the transportation of the stocks to areas of greatest anticipated
need.

2. Reference is Memorandum for the Imperial Japanese Govern-
ment from General Headquarters, Supreme Commander for the Allied
Powers, AG 430 (11 Apr 46) ESS/PC, 11 April 1946, SCAPIN 960-A, sub-
ject: Maintenance of Records of Storage and Distribution of Im-
ported Foodstuffs." A report providing the information in para-
graph 1 a of the above memorandum will be made to the Supreme Com-
mander for the Allied Powers concerning the storage of these sub-
sistence stocks.

MEMORANDUM FOR: IMPERIAL JAPANESE GOVERNMENT

THROUGH : Central Liaison Office, Tokyo

SUBJECT : Collection of Funds

1. The Imperial Japanese Government is directed to effect collection of the amounts listed below from the individuals indicated:

Name	Sex	Age	Date and Place of Birth	Status	Amount Overpaid
Shunan Fujisawa	Male	49	11/30/96 Miyagi, Japan	Internee	\$199.60
Kyodo Fujihana	Male	42	3/11/04 Toyama, Japan	Internee	154.00
Susumu Yoshimura	Male	41	11/21/04 Wakayama, Japan	Internee	100.00

2. Individuals listed above are Japanese citizens, former internees at the Crystal City Internment Camp, United States of America, repatriated to Japan on 8 December 1945 from the Port of Seattle, Washington, United States of America, on the steamship "Matsonia" destination Port of Yokohama, Japan.

3. Amounts to be collected represent overpayments made to individuals at the Crystal City Internment Camp.

4. The Imperial Japanese Government is further directed to obtain the following information from the above individuals at the time of making collection:

a. Amount of money brought from the United States of America, and whether in the form of United States Treasury check, Finance Officer Disbursing Order, United States Postal Money Order, United States currency, Japanese yen currency or other instruments to be named.

b. Name and location of United States finance office in Japan which exchanged the above instruments for yen currency. If exchange was not effected at a United States finance office, full details on where it was so exchanged, including name and location of individual or commercial firm effecting the exchange.

MEMORANDUM FOR: IMPERIAL JAPANESE GOVERNMENT

THROUGH : Central Liaison Office, Tokyo

SUBJECT : Erroneous Report

1. Reference letter file S 441 dated 6 December 1945 from Liaison Committee (Tokyo) for the Imperial Japanese Demobilization Ministries to Colonel F. P. Munson, General Staff Corp, G-2, General Headquarters, Supreme Commander for the Allied Powers.

2. YASUDA, Kishiro was interned in Sugamo Prison on 27 February 1946 and reliable information indicates that he was, without doubt, the Commander of the Japanese Red Cross Hospital Ship "TACHIBANA MARU" from May 1942 until early August 1945 when his ship was impounded by the United States Navy.

3. The Imperial Japanese Government will explain, in writing, on or before 31 August 1946 the circumstances surrounding the erroneous report referred to in paragraph one (1) above and will name the persons responsible for the information submitted.

SUBJECT : Shipment of Silk Ex- S.S. "d'Artagnan".

1. The Central Liaison Office is directed to furnish the Civil Property Custodian a report in detail as to the disposition of eight hundred pieces of silk ex- the S. S. "d'Artagnan" at Kobe, June 1940.
2. The silk was ordered by "The Groupement des Soies et Rayonnes of Lyon (France)" acting on behalf of the French Ministry of Armament and was shipped on the S. S. "d'Artagnan" which sailed to Saigon and returned to Kobe in June 1940.
3. The Japanese Government through the Mitsubishi in Tokyo notified "The Groupement des Soies et Rayonnes of Lyon" that it intended to purchase the cargo at the time the vessel returned to Kobe.

SUBJECT : Reimbursement of the Bank Account of Leybold K.K.

1. On 13 February 1946 the Osaka branch of the Mitsubishi Bank permitted Leybold K.K. to draw a check from its blocked bank account for the purpose of paying Japanese Government taxes for the year 1943. This transfer was in violation of the Ordinance of the Ministry of Finance on the preservation of the property of the Specified Powers, No. 78, issued on 20 September 1945, which prohibits transactions of this nature.

2. The Imperial Japanese Government is directed to take the necessary steps to reverse this transaction, thereby reimbursing the account of Leybold K.K. in the Osaka branch of the Mitsubishi Bank by the amount of ¥2653.75.

MEMORANDUM FOR: THE IMPERIAL JAPANESE GOVERNMENT.

THROUGH : Central Liaison Office, Tokyo.

SUBJECT : Delivery of Lumber to Korea.

1. The Imperial Japanese Government will take the following action with regard to shipments of lumber from Japan to Korea, as listed below:

a. Arrange with Shipping Control Authority, Japan for the assignment of suitable shipping to lift from Kyushu ports to Jinsen and Pusan, Korea, as follows:

Port of Loading	Quantity (in board feet)	Measurement Tons, (Approximately)	Available for lift
Misumi	1,062,000	2,124	now ready
Jesojima	1,180,000	2,360	now ready
Aburatsu	1,180,000	2,360	now ready
Kegehima	1,180,000	2,360	now ready

(1) Ship to port of Pusan, Korea immediately. One ship can be discharged every two weeks.

(2) Shipments not to arrive port of Inchen prior to 7 September. One ship can be discharged every five days.

b. Instruct the appropriate agency to prepare bills of lading for this shipment and to make distribution of copies as follows:

(1) Four copies for the ship's master, two of which are to be delivered to the Commanding General, XXIV Corps, or his authorized representative, at Jinsen and Pusan, Korea by the ship's master.

(2) Three copies for the Imperial Japanese Government for delivery to Supreme Commander for the Allied Powers.

MEMORANDUM FOR: IMPERIAL JAPANESE GOVERNMENT

THROUGH : Central Liaison Office, Tokyo

SUBJECT : Request for Use of Yen Bank Accounts by
German Concerns for the Purpose of Paying
Salaries and Incidental Expenses.

1. Reference is made to C.L.O. No. 2556 (RF), 26 May 1946
with attached application(s) from the following German firm(s)
for withdrawals of funds for payment of salaries and other office
expenses:

Bayer Yakuhi Gomei Kaisha
(Bayer Pharmaceutical Co.)

Payments of any amounts in other applications forwarded with the
above-mentioned C.L.O. Memorandum(s) will not be considered at
this time.

2. The Imperial Japanese Government is directed to release
from the terms of the Ordinance of the Ministry of Finance on the
preservation of the property of the Specified Powers, 20 Septem-
ber 1945, such funds of the above-mentioned firm(s) as are required
to pay all of the expenses listed, with the exception of those
which are denied as follows:

- (a) No charge incurred prior to 1 September 1945 will be paid.
- (b) No capital levy tax will be paid at this time.
- (c) No employee will receive aggregate remuneration, including allowances, in excess of ¥2000 a month.
- (d) No retirement allowances or other remuneration will be paid which exceed the amounts authorized by laws and/or ordinances in effect at the time such payments became due.

BASIC: Memo GHQ, SCAP, file AG 004, subject: "Request for Use of Yen Bank Accounts by German Concerns for the Purpose of Paying Salaries and Incidental Expenses," to IJG.

3. This memorandum shall not be construed to release funds from the blocking provisions of any other memorandum issued by General Headquarters, Supreme Commander for the Allied Powers, or any other ordinance promulgated by the Imperial Japanese Government.

4. All payments to individuals whose bank accounts are blocked will be made into such blocked accounts.

5. All payments will be made in accordance with the provisions of Ministry of Finance Ordinance No. 12 of 1946, subject: "Enforcement Regulation of the Emergency Financial Measures Imperial Ordinance," except that all salaries, bonuses, retiring allowances or remuneration of any kind to individual employees will be made by restricted check.

6. Detailed reports as to the exact amounts paid under this authorization shall be submitted to General Headquarters, Supreme Commander for the Allied Powers, not later than two (2) weeks from the date of this directive.
