MEMORANDUM FOR : IMPERIAL JAPANESE GOVERNMENT.
THROUGH : Central Liaison Office, Tokyo.
SUBJECT : Vaccination against Smallpox.

1. Reference is made to Memorandum Number (SCAPIN-610) dated 16 January 1946, Subject: "Smallpox Vaccination of Japanese civilians".
2. The incidence of smallpox among the inhabitants of Japan has not decreased to the extent that could normally be anticipated had proper vaccination technique been employed, in view of the amount of vaccine used and the number of persons vaccinated.
3. Investigation has disclosed serious defects in vaccination technique, evidenced by the fact that numerous patients presently suffering from smallpox claim to have been vaccinated within the past two months. It has been discovered that alcohol or solutions of phenol far in excess of permissible strength are being used for cleaning the skin prior to vaccination, thus destroying the active virus and nullifying the effect of the entire vaccination procedure.
4. The use of alcohol or phenol solution for the cleaning of the skin prior to smallpox vaccination is prohibited. Acetone will be used for this purpose or; in case of necessity, soap and water.
5. The Imperial Japanese Government will require all Japanese nationals to appear for revaccination against smallpox. All individuals will be revaccinated who do not show satisfactory evidence of a successful vaccination since 1 February 1946.
6. Adequate stocks of vaccine and acetone have been determined to be available. The Imperial Japanese Government will distribute the necessary supplies to the several prefectures as needed.
7. The above services, or the materials necessary for the administration thereof, will be made available to foreign nationals presently resident in Japan.
8. This program will be completed by 25 May 1946. A written report will be submitted to GHQ, SCAP not later than 30 May 1946.

Memorandum for the Imperial Japanese Government, file AG 370.05 (7 May 46)GC, (SCAPIN-927), dated 7 May 1946, subject: "Repatriation."

GENERAL POLICIES GOVERNING REPATRIATION OF
JAPANESE NATIONALS IN FORMERLY JAPANESE OCCUPIED TERRITORY, AND
NON-JAPANESE* FROM JAPAN

The following policies will govern repatriation of Japanese nationals in formerly Japanese occupied territory, and non-Japanese from Japan.*

1. Maximum utilization will be made of Japanese naval and merchant shipping allocated for repatriation of Japanese nationals.
2. Japanese naval vessels and those Japanese merchant vessels, designed primarily for the transport of personnel and not required for inter-island or coastal passenger service, will be utilized for the repatriation of Japanese nationals.
3. Personnel to be repatriated will not be transported on cargo vessels to the extent that the essential cargo is displaced. Repatriates will be transported on cargo vessels destined only for authorized repatriation ports (see paragraph 2a, Annex II).
4. The Imperial Japanese Government will operate, man, victual and supply Japanese-manned shipping used for repatriation to the maximum practicable extent. In case of emergency, fuel, food, medical supplies and material repairs may be obtained from US Army or Navy sources, or at foreign ports from foreign government sources, by memorandum receipt signed by the master of the vessel concerned (see Annex IV).
5. First priority will be granted to the movement of Japanese military and naval personnel, and second priority to the movement of Japanese civilians. Exception may be made by the appropriate Allied area commanders as deemed necessary for areas under their control.
6. Only personnel being repatriated to and from Japan under the Japanese repatriation program or such others as may be authorized in special cases by the Supreme Commander for the Allied Powers will be transported on repatriation vessels.

* The term "non-Japanese" as used in this annex and throughout this memorandum includes only Chinese, Formosans, Koreans, and Ryukyans.

BASIC: Annex I to Memo for IJG, file AG 370.05 (7 May 46)GC, (SCAPIN-927), dated 7 May 1946, subject: "Repatriation."

7. Non-Japanese nationals who have been repatriated to their homelands, will not be permitted to return to Japan until such time as commercial facilities are available, except as authorized by the Supreme Commander for the Allied Powers.

8. All Japanese personnel will be disarmed prior to return to Japan proper.

9. In the evacuation of Japanese nationals from areas under the control of the Commander-in-Chief, United States Army Forces, Pacific, and the Commander-in-Chief, Pacific Ocean Areas, the Supreme Commander for the Allied Powers will prescribe the percentage of shipping, allocated exclusively for repatriation purposes, to be employed in servicing the respective areas. Priorities for the evacuation of specific areas will be established as necessary.

10. The Supreme Commander for the Allied Powers retains control over, and will make such arrangements as may be required for, the transportation to and reception in Japan of Japanese nationals evacuated from areas under the control of: the Generalissimo, Chinese Armies; the Supreme Allied Commander, Southeast Asia Command; the General Officer Commanding, Australian Military Forces; and the Commander-in-Chief, Soviet Forces in the Far East (the last when appropriate agreements have been consummated).

ANNEX III

to

Memorandum for the Imperial Japanese Government, file AG 370.05 (7 May 46) GC, (SCAPIN- 927), dated 7 May 1946, subject: "Repatriation."

REPATRIATION TO AND FROM JAPAN

SECTION I - GENERAL PLAN.

1. a. The following plan governing the repatriation to and from Japan, now in effect, will continue until otherwise directed by the Supreme Commander for the Allied Powers.

b. The entire plan revolves around the use of reception centers and the flow of persons to be repatriated through these centers in the numbers that can be accommodated by the available shipping and rail transportation.

c. Under this plan non-Japanese nationals who, having registered as being desirous of repatriation, refuse to comply with plans of the Imperial Japanese Government for movement to reception centers forfeit their privilege to repatriation and will not be considered in any future repatriation plans. A list of such persons will be maintained by the Japanese Government.

2. The following reception centers will be used to process non-Japanese repatriates leaving Japan:

Hakata and Senzeki	<u>Primarily to process Koreans.</u>
Kagoshima	<u>Primarily to process Ryukyans.</u>
Kure Area	<u>Primarily to process Formosans, and such Chinese as were formerly domiciled in south China.</u>
Maizuru	<u>Primarily to process Chinese who were formerly domiciled in central China.</u>
Sasebo	<u>Primarily to process Chinese who were formerly domiciled in north China.</u>

3. The Japanese Ministry of Welfare will:

a. Make the necessary arrangements (with the other ministries concerned) to insure that each of the reception centers mentioned in paragraph 2 above is kept filled, insofar as practicable, with outgoing repatriates as hereinafter prescribed.

BASIC: Annex III to Memo for IJG, file AG 370.05 (7 May 46)GC, (SCAPIN- 927), dated 7 May 1946, subject: "Repatriation."

b. Scrutinize carefully the shipping schedules furnished and take appropriate action to insure that:

- (1) Reception centers do not become congested.
- (2) Repatriation vessels sailing for Korean or Formosan ports are filled to capacity with repatriates for those areas, insofar as practicable.

c. Arrange for the necessary transportation to move incoming repatriates from the reception centers within twenty-four (24) hours after completion of processing.

d. Establish controls to fix in their present abodes non-Japanese nationals desiring return to their homelands until such time as they are directed to move under the provisions of this plan.

4. The Imperial Japanese Government will be furnished shipping schedules governing the movement of:

a. Japanese merchant and naval vessels, Japanese-manned Liberty ships and Landing Ships, Tank, by the Shipping Control Authority for the Japanese Merchant Marine.

b. US-manned Landing Ships, Tank, and other Allied vessels, as they are established, by the Supreme Commander or the Allied Powers.

5. The Imperial Japanese Government will prohibit the use of reception center facilities as permanent housing.

6. Guards aboard trains carrying non-Japanese repatriates.

a. Local Allied military authorities have been directed to place Allied guards aboard all trains scheduled specifically to carry non-Japanese repatriates to reception centers. Guards will number two (2) per rail car occupied by non-Japanese repatriates.

b. The Imperial Japanese Government will direct the local Japanese government officials to:

- (1) Request local Allied military authorities to place Allied guards aboard trains scheduled specifically to carry non-Japanese repatriates to reception centers. Each request will contain information as follows:
 - (a) Number of non-Japanese repatriates being transported.
 - (b) Number of rail cars in the train scheduled specifically to carry non-Japanese repatriates.

BASIC: Annex III to Memo to IJG, file AG 370.05 (7 May 46)GC, (SCAPIN- 927), dated 7 May 1946, subject: "Repatriation."

(c) Schedule, route and destination of train.

- (2) Submit requests to local military authorities in sufficient time to permit orders to be issued and guards to be placed aboard the trains.
- (3) Provide suitable sleeping cars or first class coaches as quarters for Allied guards during entire trip, when possible to do so without using cars needed by other Allied personnel on official business. When, in exceptional cases, these accommodations are not available second class coaches may be furnished in lieu thereof. The cars will be clean.
- (4) Promptly forward complete and accurate information regarding changes in train movements to the appropriate local military authorities.

c. The Imperial Japanese Government will also direct the local Japanese government officials to:

- (1) Organize outgoing non-Japanese repatriates into groups under selected group leaders prior to entraining.
- (2) Insure against overcrowding.
- (3) Insure orderly entraining and detraining of the groups.

7. Control.

a. The Imperial Japanese Government will direct its representatives at reception centers to:

- (1) Organize outgoing non-Japanese repatriates into groups under selected group leaders prior to embarkation.
- (2) Thoroughly instruct these groups in shipboard routine and sanitary measures to be observed.
- (3) Insure orderly embarkation of groups.
- (4) Furnish the captain of Allied-manned vessels with a list of individuals and leaders in each group.

b. The local Japanese officials will utilize every legal means available to control repatriates, while in Japan and aboard Japanese-manned vessels.

MEMORANDUM FOR: THE IMPERIAL JAPANESE GOVERNMENT

THROUGH : Central Liaison Office, Tokyo

SUBJECT : Closed Institutions and Time Limits on Legal Action
for Recourse

1. Legal action to enforce contractual obligations, including the collection of checks, drafts, promissory notes, bills of exchange, and realizations on mortgages, pledges, endorsements, guarantees, and other evidence of debt is barred under Japanese law after the expiration of various periods of time subsequent to maturity or for other reasons. Institutions closed, or that may be closed, pursuant to Memorandum of General Headquarters, Supreme Commander for the Allied Powers, file AG 091.3 (30 Sep 45) ESS, dated 30 September 1945, subject: "Closing of Colonial and Foreign Banks and Special Wartime Institutions," hold large numbers of such instruments and there is danger that delay in the liquidation of these institutions may result in loss to the holding institutions and others. Similarly Japanese statutes, ordinances on prescriptions and like time limits on legal action may affect creditors' claims against closed institutions.

2. In order to accord the closed institutions and liquidators, appointed or to be appointed, as well as the creditors of such institutions sufficient opportunity to enforce their claims in an orderly and unhurried manner, and to prevent or minimize loss to the closed institutions and to their creditors, it is directed that the Imperial Japanese Government take all necessary action to suspend the effect of all past and present laws and ordinances limiting the commencement of legal action on all claims maturing after 1 January 1931, so that the Statutes of Limitations (prescriptions) cannot be pleaded as a defense or bar to any action brought by any closed institution or by any creditor of such institution on claims maturing after 1 January 1931. Action taken will include provisions to renew and revive any right or claim which may already have expired in consequence of such pleadings.

3. The suspension from regular Statutes of Limitations, ordered in paragraph 2 above, shall not apply to or inure for the benefit of third parties involved in claims or rights of recourse resulting from actions taken by the closed institutions and liquidators in accomplishing
