SWEDISH DIPLOMATIC MISSION  
No. 318/46.

2 Encl.

Note Verbale.

The Swedish Diplomatic Mission in Japan presents its compliments to the Imperial Ministry for Foreign Affairs and with reference to their notes verbales Nos. 26/GG and 29/GG, has the honour to enclose herewith receipt on Yen 466:12 for this Mission's cable expenses during the months of May and June, 1946, for safeguarding of Japanese interests abroad.

At this juncture the Swedish Diplomatic Mission wishes to indicate that the cable expenses for July and August, 1946, amount to Yen 829:87. An early reimbursement of this amount would be appreciated.

Tokyo, 16th October, 1946.

MEMORANDUM TO: Central Liaison Office, Imperial Japanese Government, Tokyo, Japan.

SUBJECT : Flag of the 5th Foreign Legion Infantry Regiment Removed from Indo-China.

1. The Central Liaison Office is directed to investigate and report on the present location and condition of the French flag of the 5th Foreign Legion Infantry Regiment removed by the Japanese troops from Indo-China in 1945.
2. The flag was hanging in the "salle d'honneur" of the regiment in Vietri until 20 March 1945, when it was removed by the Japanese Armed Forces. At the end of August 1945, the flag was hanging on a wall in the apartment of the Japanese Commanding Officer of the Vietri Garrison.
3. Col. Tazoe, who was the Commanding Officer of the 62nd Infantry Regiment of the 21st Japanese Division garrisoned in the vicinity of Hanoi, is reported to have information regarding the flag in question.
4. The required report is to be submitted to the Civil Property Custodian by 28 November 1946. Photographs, 8"x 10", in duplicate, are to accompany the report.

MEMORANDUM FOR: THE IMPERIAL JAPANESE GOVERNMENT  
THROUGH : Central Liaison Office, Tokyo  
SUBJECT : Industrial Recovery Corporation

1. Reference, C.L.O. No. 3965 (ECI-F) proposing the establishment of an Industrial Recovery Corporation and the dissolution of the present Industrial Equipment Corporation.

2. The above proposal in its present form is unsatisfactory.

3. The Japanese Government should modify its proposal for establishment of such Industrial Recovery Corporation, incorporating the following basic considerations:

a. Provision for the Industrial Recovery Corporation to act as liquidating agent only in its relation to the dissolution of the Industrial Equipment Corporation; but that the Industrial Recovery Corporation shall have the power to allocate facilities in the hands of the Industrial Equipment Corporation by requiring their lease, sale, or other disposition when needed in the execution of the programs of the Economic Stabilization Board.

b. Provision for the Industrial Recovery Corporation to be responsible to the Ministry of Commerce and Industry, subject to the orders, directives and programs of the Economic Stabilization Board.

c. Provision for the Industrial Recovery Corporation's working funds to be derived from the Reconversion Finance Corporation with respect to each project and subject to the landing regulations of that agency.

d. Provision that all functions of the Industrial Recovery Corporation be exercised within the framework of the economic policy as determined by the Economic Stabilization Board, and that those functions be limited as follows:

SUBJECT: Radiotelephone Service Between the United States  
and Japan

1. This directive supplements Memorandum for the Imperial Japanese Government, file AG 311.3 (8 Jan 46)CCS, (SCAPIN 566), subject: Establishment of Telephone Service Between the United States and Tokyo.
2. The Ministry of Communications will arrange immediately for the handling of radiotelephone calls to the United States from Yokohama. This extension of radiotelephone service will be made available through the assignment of one channel of the existing radiotelephone circuit facilities, for handling calls made from a telephone booth, located in space made available by Headquarters, Eighth Army, in Yokohama. Hours of service will be from 0800 to 1200 daily, until further notice.
3. The Ministry of Communications will supply the necessary facilities and personnel to provide for the operation of this service, including the handling of funds, as a branch office of the main overseas telephone office in Tokyo. Basic material requirements will include a high quality voice circuit, a telephone order wire circuit and a teletype order wire circuit, less teletype machines, between the Tokyo and Yokohama offices; communications apparatus; office equipment; and the sundry items required to insure that proper service, financial transactions, accounting and records are maintained.
4. The Ministry of Communications will coordinate all plans for the setting up of this branch office, and its facilities, with the Signal Office, Eighth Army, Yokohama.
5. Direct correspondence between the Civil Communications Section, General Headquarters, Supreme Commander for the Allied Powers, and the Ministry of Communications, within the scope of this memorandum is authorized.

Note Verbale.

The Swedish Diplomatic Mission in Japan presents its compliments to the Imperial Japanese Ministry for Foreign Affairs and - referring to the latter's note verbale of 3rd instant, No. 30/LJS, regarding the names of seven Japanese internees in British India, which was received to-day through the proper intermediary - has the honour to inform the Imperial Ministry that the only reason why the Mission has not yet indicated the said names is that they have not yet been communicated to the Mission.

It may be taken for granted that the Swedish Consulate General has already taken steps to forward the details in question in due course. However, in order to ensure that the matter is not overlooked, the Mission now sends a telegram to the proper Swedish Authorities asking them to furnish the death-certificates of the deceased.

to

Memorandum for the Imperial Japanese Government, file AG 370.05 (7 May 46)  
GC, (SCAFIN-927), dated 7 May 1946, subject: "Repatriation."

REPATRIATION TO AND FROM JAPAN

SECTION I - GENERAL PLAN.

1. a. The following plan governing the repatriation to and from Japan, now in effect, will continue until otherwise directed by the Supreme Commander for the Allied Powers.

b. The entire plan revolves around the use of reception centers and the flow of persons to be repatriated through these centers in the numbers that can be accommodated by the available shipping and rail transportation.

c. Under this plan non-Japanese nationals who, having registered as being desirous of repatriation, fail to comply with the instructions of the Imperial Japanese Government for consummation of their repatriation, forfeit their privilege to repatriation and will not be considered in any future repatriation plans. A list of such persons by name will be maintained by the Japanese Government. The number of persons so listed as of 31 May 1946, will be reported to General Headquarters not later than 25 June 1946. Thereafter monthly reports will be furnished on or about the 10th day of the month following the month reported on.

d. Exception to paragraph 1 c above may be made in the case of families which cannot comply with plans of the Imperial Japanese Government for their repatriation, due to circumstances over which they have no control. Insofar as practicable the immediate family group should be considered a unit, and should be repatriated as a unit, unless members thereof have forfeited their privilege of repatriation. Persons, who cannot comply with repatriation plans, due to circumstances beyond their control, will not be included in the reports directed in paragraph 1 c above.

2. The following reception centers will be used to process non-Japanese repatriates leaving Japan:

Hakata	Primarily to process Koreans.
Kagoshima and Sasebo	Primarily to process Ryukyans now domiciled on Kyushu.
Kure Area and Nagoya	Primarily to process Ryukyans not processed through Kagoshima and Sasebo.

(Revised 5 November 1946)  
(SCAFIN-927/1, 2, 3, 7 and 10)

BASIC: Annex III to Memo to IJG, file AG 370.05 (7 May 46)GC, (SCAFIN-927), dated 7 May 1946, subject: "Repatriation."

and sanitary measures to be observed.

(3) Insure orderly embarkation of groups.

(4) Furnish the captain of Allied-manned vessels with a list of individuals and leaders in each group.

b. The local Japanese officials will utilize every legal means available to control repatriates, while in Japan and aboard Japanese-manned vessels.

SECTION II - REPATRIATION TO AND FROM KOREA

7. The following plan governs the repatriation of Korean nationals.

8. Shipping.

a. Repatriation shipping is assigned to lift 4,000 Koreans per day from Hakata, Japan, to Pusan, Korea. These ships will be returned empty to Japan.

b. Shipping will be scheduled as necessary to lift Japanese from Korea to Sasebo.

9. Processing of Koreans through Japanese ports.

a. The repatriation of Koreans now in Japan, who were formerly resident in Korea south of 38° north latitude, will be completed on or before 15 December 1946, except as noted in paragraph 1d above. A report will be submitted to the Supreme Commander for the Allied Powers by 31 December 1946 showing:

(1) Names of Koreans, listed by family, who were not repatriated on or before 15 December 1946, but who have not forfeited their privilege of repatriation, as outlined in paragraph 1d above.

(2) Approximate date each family, referred to in paragraph 9a (1) above, will be able to move to the Hakata Reception Center.

b. Koreans will be unloaded to Pusan, Korea in shipping as provided in paragraph 8a above until all Koreans desirous of repatriation are either evacuated from Japan or have forfeited their privilege to repatriation.

10. Japanese repatriates arriving in Japan from Korea will be processed as prescribed in paragraph 3b (2), Annex V.

to

Memorandum for the Imperial Japanese Government, file AG 370.05 (7 May 46) GC, (SCAPIN-927), dated 7 May 1946, subject: "Repatriation."

MEDICAL AND SANITARY PROCEDURES

1. The Ministry of Public Welfare will carry out the following medical and sanitary procedures as minimum requirements incidental to repatriation of all nationals to and from Japan.

a. Procedures with respect to all repatriates will provide for:

- (1) Physical inspection for detection of louse infestation, and of cases and suspects of quarantinable diseases (cholera, plague, smallpox, louse-borne typhus, and yellow fever) or of communicable disease which might prejudice the health of subsequent contacts.
- (2) Hospitalization or other effective segregation of persons known or suspected to be infected with quarantinable or significant communicable diseases, until communicability has passed. These persons will not be placed aboard vessels or trains carrying repatriates (see paragraph 3). All Ryukyuan repatriates will be held in quarantine for a six (6) day period prior to being placed aboard repatriation ships.
- (3) Appropriate measures for continued observation of persons known to have had contact with a quarantinable disease of a type liable to convey infection. Observation will continue during the incubation period of the disease concerned, calculated from the day of last contact. The following incubation periods will be observed: smallpox - 14 days, louse-borne typhus - 12 days, plague - 6 days, yellow fever - 6 days, and cholera - 6 days, (see paragraph 3).
  - (a) In accordance with the risk involved, appropriate measures may vary from detention under observation to notification to the responsible control agency in the country of entry of the presence of passengers aboard ships that have been exposed to the diseases mentioned in paragraph 1a (3) above.

BASIC: Annex V to Memo for IJG, file AG 370.05 (7 May 46)GC, (SCAPIN-927) dated 7 May 1946, subject: "Repatriation."

- (4) Disinfestation by DDT of all repatriates arriving in Japan. Disinfestation will include the clothing and baggage of such persons and other articles susceptible to infestation.
- (5) Immunization.
  - (a) The following vaccinations will be given:
    1. Smallpox vaccination will be given to all outgoing repatriates, and all incoming repatriates not vaccinated within one year.
    2. Typhus vaccine will be administered to all outgoing and incoming repatriates.
    2. Cholera vaccine will be given during spring and summer to all incoming and outgoing repatriates.
  - (b) Only the initial dose of a multi-dose vaccine need be administered at the reception centers if the flow of outgoing repatriates would be impeded otherwise, except that 2 inoculations against cholera will be administered to each Ryukyuan repatriate during the appropriate seasons.
  - (c) A certificate, in the English language, indicating which vaccinations have been administered, will be furnished each outgoing repatriate prior to embarkation on repatriation ships.
- (6) Maintenance of records required to comply with International Quarantine procedure.
  - b. Procedures with respect only to Japanese-manned vessels will provide for:
    - (1) Inspection for rodent infestation aboard such vessels arriving from areas in which plague is known to be occurring or is considered endemic.

BASIC: Annex V to Memo for IJG, file AG 370.05 (7 May 46)GC, (SCAPIN-927) dated 7 May 1946, subject: "Repatriation."

- (2) Fumigation by cyanide, sulfur dioxide, or other method submitted to and approved in advance by the Supreme Commander for the Allied Powers, of vessels in which a case of rodent plague has been detected; or in which there is an excessive number of rats as determined by the amount of feces present. Where fumigation can not be arranged trapping or poisoning programs shall be carried out under the supervision of the port authorities.
- (3) Examination for infection with plague of all rats recovered after fumigation, or trapping. Monthly reports of such procedures will be submitted to the Commanding General, Eighth Army.
- (4) Vessels infected with or suspected to be infected with plague shall not be permitted to come alongside a wharf until freed of infection. Rat infested vessels coming to dock shall be fended off at least six feet, all lines shall be fitted with rat guards and all gangways and other connections with shore removed during the hours of darkness or kept well-lighted and under guard.
- (5) Disinfestation with DDT will be accomplished monthly on all vessels operating on shuttles where less than a month is required for a round trip. Vessels requiring more than a month for

a round trip will be disinfested with DDT prior to departure from Japan on each voyage.

- (6) Other sanitary measures approved by the Supreme Commander for the Allied Powers as appropriate for control of diseases aboard vessels, including adequate provision for safe drinking water and proper disposal of wastes, and thorough cleaning of vessels at port of debarkation. In all cases ships will be thoroughly cleaned prior to their departure from Japan and in the shortest practicable time.
  - (7) Providing ships' masters with the necessary means and equipment to maintain a high degree of sanitation while at sea. The Imperial Japanese Government will require ships' masters to enforce the desired high standard of cleanliness and sanitation.
- c. Procedures with respect to reception centers will provide for:
- (1) A continuing program of rat control and autopsies of captured rats in all reception centers with immediate notifications to appropriate Allied military and Japanese authorities whenever a plague rat is found. Monthly reports as provided in paragraph 1 b (3).
  - (2) All immunizations, processing and disinfestation of ships, and personnel and their baggage being done at the reception center. A blanket certificate to the effect that all required procedures have been accomplished will be attached to the passenger manifest. In cases where any required procedures have been omitted, an appropriate notation will be made on the certificate.
  - (3) Physical inspection being done during daylight hours, except in exceptional circumstances in which the flow of repatriates would be impeded otherwise.
  - (4) Additional measures of port sanitary control, including in particular investigation of enteric infections, being carried out by the Ministry of Public Welfare as desirable and feasible provided that the flow of repatriates is not impeded thereby.

d. Japanese crews of repatriation vessels will be vaccinated for the diseases enumerated in paragraph 1 a (3) above. Immunization will be considered valid not to exceed the following periods: smallpox - 1 year, louse-borne typhus - 6 months, cholera - 4 months, yellow fever - 5 years, plague - 3 months. Each member of the crew will be issued an immunization register, indicating type of vaccination and the date the vaccine was administered. The crew members will carry these registers at all times. Loss of immunization registers will necessitate re-vaccination.

e. Members of crews of incoming repatriation ships carrying smallpox cases will be vaccinated, or revaccinated, and the responsible control agency notified that the ship can be dispatched when five days have elapsed subsequent to the vaccination. This will not apply to ships carrying quarantinable disease other than smallpox.

f. The Imperial Japanese Government will direct the captains of Japanese-manned repatriation vessels to notify the responsible control agency in the country of entry of the presence on board ship of any of the diseases listed in paragraph 1 a (3) above or of exposed passengers traveling during incubation periods. Notification will also include cases of significant communicable disease, the institutionalization of which is not immediately practicable, i. e. tuberculosis, etc. When applicable, the ship's master will report the ship free from contagious disease.

2. Japanese medical personnel to be furnished for repatriation shipping.

a. Medical personnel aboard Japanese-manned Liberty ships and Landing Ships, Tank, repatriating Japanese from China, except for hospital ships, will be furnished by the Chinese authorities from Japanese medical personnel now in China. This personnel will be assigned for permanent duty aboard these vessels.

b. The Imperial Japanese Government will assign medical personnel for permanent duty aboard all Japanese-manned repatriation shipping, other than that mentioned in paragraph 2 a above, as follows:

- (1) On ships making voyages of less than four days duration, two medical orderlies, except as specified in paragraph 2 b (2) below.
- (2) On ships making voyages of four days or longer duration, and ships engaged in repatriating Ryukyans, a doctor and two medical orderlies.

c. The Imperial Japanese Government will obtain names and itineraries of shipping requiring Japanese medical personnel from the Shipping Control Authority for the Japanese Merchant Marine.

3. Quarantine procedures for cholera among repatriates.

a. The Imperial Japanese Government will take the following measures immediately to prevent the introduction of cholera into Japan by individuals being repatriated from ports infected with cholera. Ports so infected will be designated by the Supreme Commander for the Allied Powers as "cholera ports."

b. In the case of ships with repatriates from cholera ports which arrive without cases of cholera aboard:

- (1) Where the voyage has taken more than six (6) days, all personnel, except crew members who have been inoculated within the previous one month period (see paragraph 1 d above), will be inoculated with 1 cubic centimeter of cholera vaccine and debarked, and processing procedures will be performed as usual.

4. Quarantine procedures for incoming repatriation vessels infected or suspected of being infected with smallpox.

a. An infected vessel shall be held in quarantine until the personal effects of the sick and the quarters occupied by them, together with furnishings, shall have been disinfected. Measures to accomplish this disinfection will be instituted at once.

b. Persons:

- (1) Persons ill with, or suspected of being ill with, smallpox shall be isolated and kept under medical observation until known to be non-infectious.
- (2) All contacts shall be vaccinated and held under observation until the results of the vaccination indicate immunity. Persons refusing vaccination shall be held under observation until 14 days have elapsed from the time of their last contact.

5. Quarantine procedures for arriving vessels infected, or suspected of being infected, with typhus.

a. Vessels:

- (1) Infected vessels shall be detained in quarantine until vermin destruction has been completed. Measures to accomplish this vermin destruction will be instituted at once.
- (2) A louse-infested vessel shall be disinfested.
- (3) The personal effects and baggage of typhus cases, suspect typhus cases, louse-infested persons and suspect louse-infested persons shall be disinfested.

b. Persons:

- (1) Persons ill from and suspected to be ill from typhus shall be isolated and kept under medical observation until known to be non-infectious.
- (2) Contacts whose anti-typhus vaccinations are up to date may be released under 12-day surveillance.
- (3) Contacts whose anti-typhus vaccinations are not up to date shall be vaccinated and held under surveillance or observation for 12 days from date of last contact.
- (4) All persons infested or suspect-infested with vermin shall be disinfested.

- (5) Vermin-free persons who had no contact with either typhus cases or vermin-infested persons may be released under 12 days' surveillance provided their anti-typhus vaccinations are up to date or provided vaccination is given upon arrival.

6. Quarantine for arriving vessels infected or suspected of being infected with plague.

a. Vessels:

- (1) A plague infected vessel shall be detained in quarantine and immediate measures instituted for the destruction of rodents and vermin aboard.
- (2) Disinfection of personal effects, baggage, bedding, quarters, kitchens, store rooms, etc., shall be accomplished as the quarantine officer may direct to insure that the vessel is freed of infection.

b. Persons:

- (1) Persons infected, or suspected of being infected, with plague shall be isolated and kept under medical observation until known to be non-infectious.
- (2) Contacts shall be held under observation or surveillance for a period of 6 days subsequent to last possible exposure.

7. The Japanese Government will furnish the vaccine necessary for medical processing at all repatriation ports in China, Manchuria and Japan. The Supreme Commander for the Allied Powers will furnish the necessary instructions concerning amounts and types needed for China and Manchuria. Where it is not possible for the Japanese Government to furnish vaccines in the required amounts, the Supreme Commander for the Allied Powers will be notified of deficiencies with reasons therefor.

MEMORANDUM FOR: IMPERIAL JAPANESE GOVERNMENT.  
THROUGH: Central Liaison Office, Tokyo.  
SUBJECT: Sponsorship and Support of Shinto by Neighborhood Associations.

1. Numerous complaints have been received concerning the continued use of neighborhood associations (chonakai, burakukai, tonarigumi) to collect funds for the support of Shinto shrines and Shinto festivals and activities and to distribute amulets and charms. These practices violate paragraph 1-a of the Memorandum for the Imperial Japanese Government, AG 000.3 (15 Dec 45) GIE, SCAPIN 448, 15 December 1945, subject: "Abolition of Governmental Sponsorship, Support, Perpetuation, Control, and Dissemination of State Shinto".

2. The Imperial Japanese Government is directed to take appropriate action to remedy this situation.
