SUBJECT: Office Space for Special Procurement Board

- Reference is made to:
 - Supreme Commander for the Allied Powers, Directive #2, dated 3 September 1945.
 - Supreme Commander for the Allied Powers, Memorandum for the Japanese Government, SCAPIN 1872, dated 31 March 1948.
- Attention is invited to Part IV of reference directive 1a above, which required the Japanese Government to establish one central agency and required sub agencies in each of the major occupied areas to receive requisitions for, and to effect procurement of, Occupation Force requirements.
- The central agency (now the Special Procurement Board) established by the Japanese Government pursuant to reference 1a is not equipped to function in the manner prescribed by the Supreme Commander. Specifically there are now 1,486 employees of the Special Procurement Board attempting to perform their duties within 26,732 square feet of space in the Caga Building. There is also an insufficient number of English typewriters.
- Under the provisions of paragraph 8, reference 1b, the Japanese Government will take immediate steps to provide adequate additional facilities required by the Special Procurement Board to insure efficient operation.
- The Supreme Commander for the Allied Powers has no objection to the use of from 20,000 square feet to 30,000 square feet of space in the Takitomi Building at Number 4, 2-Chome Nihon-Bashi Odenma-Cho, Tokyo, when released by the Mitsubishi Trading Company. It is anticipated that three floors of that building could be made available within a reasonable time.

States dollar charges for services and functions performed therefor as prescribed herein. Piers, warehouses and other facilities not required by the occupation forces will be released to the Japanese Government for this purpose by the Commanding General, Eighth Army. The Japanese Government will continue to perform required port operations at other Japanese ports as at present subject to the supervision of the Commanding General, Eighth Army.

b. The Japanese Government, through acceptable agencies designated by the Japanese Government, will furnish all port facilities required at the Tokyo-Yokohama and Kobe ports and at other seaports of entry in Japan by commercial and foreign government vessels carrying civilian relief and commercial cargo and/or passengers, as defined by and in accordance with Inclosure No. 1, "Charges for Port Facilities and Terminal Services"; and will assume responsibility for such operations beginning 1 October 1948.

c. The Japanese Government, through acceptable agencies designated by the Japanese Government, will be responsible for the following terminal operations at Takashima and South Piers at Tokyo-Yokohama Port and Hyogo and Naka Piers at Kobe Port, effective 1 October 1948; and for such other piers as and when released by the Commanding General, Eighth Army:

- (1) Pier and warehouse operation.
- (2) Safeguarding and accounting for cargoes, to include certified tallying and maintenance of appropriate records of cargo handled for the account of vessels.
- (3) Release of incoming cargo to consignees and receipt for shipment of outgoing cargo.
- (4) Furnishing the labor, equipment, supplies, tugs, lighters and supervisory and administrative personnel necessary to provide satisfactory terminal services.
- (5) Computing, assessing, invoicing and assisting otherwise in the procedure necessary to insure collection of United States dollar charges by the Supreme Commander for the Allied Powers for all terminal facilities furnished in connection with the handling, warehousing, safeguarding, accounting for, receipt and forwarding of commercial cargo in accordance with the instructions contained in this memorandum and the inclosures thereto.

0205

d. The Japanese Government, through acceptable agencies designated by the Japanese Government and subject to the supervision of the Commanding General, Eighth Army, will be responsible for customs surveillance at all piers, sheds, warehouses and customs compounds where commercial cargo and passengers are moved, loaded or unloaded; for the clearance of such cargo and passengers; and that such movement of commercial cargoes and passengers is in accordance with instructions of the Supreme Commander for the Allied Powers now in effect or to be placed in effect, and with Japanese Customs Laws and Regulations not in conflict with such instructions.

3. Vessels and cargo to be handled.

a. In general, vessels which are to discharge or load only occupation force cargo and passengers will be discharged and loaded by the occupation forces. Vessels which are to discharge or load civilian relief, reparations and/or commercial cargoes and passengers will be discharged, loaded and furnished other port facilities by the Japanese Government or acceptable agencies designated by the Japanese Government. Vessels which are to discharge or load mixed cargo and/or passengers will normally be discharged or loaded by the Japanese when the preponderance of cargo and/or passengers to be loaded or unloaded is civilian relief, reparations and/or commercial cargo. The occupation force commander at the appropriate port will decide in each case whether a vessel will be handled by the occupation forces or by the Japanese.

b. Civilian relief, reparations and commercial cargoes will be handled by the Japanese at such piers as are released to the Japanese Government and in accordance with the following:

- (1) No civilian relief, reparations or commercial cargoes will be discharged or loaded at occupation force operated piers except as approved in each case by the occupation force port commander.
- (2) The unloading of occupation force cargo at Japanese operated piers will be supervised by the occupation force port commander and such cargo will normally be removed by occupation force agencies from such piers within seventy-two (72) hours after discharge.
- (3) Civilian relief and/or commercial cargoes unloaded at occupation force piers will be removed within seventy-two (72) hours after discharge unless specifically exempted from this requirement in each case by the Commanding General, Eighth Army.

(4) Cargo handling and terminal operations, with respect to all foreign vessels in Japanese ports, will be on a seven-day week, twenty-four-hour-day basis. The Japanese Government will take necessary steps to assure that sufficient facilities are provided to prevent undue delay in discharging or loading of vessels. The occupation force commander at the appropriate port will determine which types of cargoes will be given priority in handling. The use of United States Army materials handling equipment for the movement of cargoes designated herein as a Japanese responsibility will be subject to availability and approval of the Commanding General, Eighth Army. It is expected that the Japanese Government will take prompt action to insure provision of necessary materials handling equipment for all Japanese port operations by 1 October 1948.

(5) Effective 1 October 1948 the occupation force port commanders at Tokyo-Yokohama and Kobe ports may deliver to the appropriate Japanese terminal operators such commercial and civilian relief cargoes then under their jurisdiction, or thereafter discharged by the United States Army, and will obtain receipt therefor. When such cargoes are discharged by the occupation forces the responsibility of the Japanese Government starts upon receipt of the cargo. Nothing herein changes existing instructions regarding the furnishing of receipts by the Japanese Government to military government units for civilian relief cargoes.

c. The Japanese Government, or its authorized agents, is authorized to deal directly with authorized licensed general shipping agents for the extension of port facilities from Japanese sources after assumption of the responsibilities as outlined in paragraph 2 above.

d. General shipping agents may select, with respect to commercial cargo and passengers, the authorized cargo handling company which will perform the cargo handling for their vessels. The occupation force port commander, however, shall, upon request, have priority on the utilization of such companies for the handling of occupation force cargo.

4. Terminal Operation. Terminal operation will be conducted in accordance with good business practices. Terminal operations at Japanese

Government owned piers should be conducted by reliable Japanese commercial firms under contract to the Japanese Government, and terminal operation at privately owned Japanese piers, when established, should be conducted by Japanese commercial organizations designated by the pier owners or lessees. All terminal operations will be performed in accordance with the following procedure:

a. Upon receipt of incoming commercial cargo the terminal operator will inform the consignee prior to delivery of cargo:

- (1) That the cargo has arrived.
- (2) Of the requirements of paragraph 4b and c below and that these requirements must be met prior to the release of the cargo.
- (3) By invoice of the United States dollar charges which must be paid or payment guaranteed in dollars or other currency acceptable to the Supreme Commander for the Allied Powers.

b. Incoming commercial cargo will not be released for delivery or shipment to consignees until all of the following conditions are met:

- (1) Cargo is released by the local general shipping agent (or appropriate foreign government mission, if there is no agent) for the vessel from which discharged.
- (2) Customs clearance has been granted by the Japanese Customs under supervision of the Commanding General, Eighth Army.
- (3) Evidence is presented that the consignee has paid a sum in United States dollars, or other currency acceptable to the Supreme Commander for the Allied Powers, sufficient to cover all terminal charges assessed; or has guaranteed such payment to the satisfaction of the Supreme Commander for the Allied Powers; or will pay for terminal services in yen under the provisions of paragraphs 4c and 5d below.

c. Charges in yen for port facilities and terminal services furnished and the collection thereof will be in accordance with current Japanese business rates and practices.

d. Procurement demand receipts (GPA Form 2) will be executed for occupation force cargo handled at Japanese operated piers.

5. Charges for port facilities and terminal services.

a. Effective 1 October 1948 the Japanese Government, or acceptable agencies designated by the Japanese Government, will compute and assess charges in United States dollars or other currency acceptable to the Supreme Commander for the Allied Powers, against foreign (non-Japanese) vessel operators and/or governments, shipping agents, commercial companies, individuals and others with legal access to such currency for all port facilities and terminal services furnished from Japanese sources.

b. The computation of these charges will be based on and will be in accordance with:

- (1) The currently effective "Schedule of Rates for Port Facilities at Japanese Ports," published by the Supreme Commander for the Allied Powers, attached as Annex A to Inclosure No. 1.
- (2) The currently effective "Rates for Terminal Services" attached as Annex B to Inclosure No. 1.
- (3) "Charges for Port Facilities and Terminal Services," Inclosure No. 1 hereto.

c. Itemized invoices of such computed charges for port facilities and terminal services furnished from Japanese sources will be prepared by the Japanese Government, or acceptable agencies designated by the Japanese Government, in accordance with the procedures outlined in Inclosure No. 1 hereto, and forwarded to the Supreme Commander for the Allied Powers. One copy of such invoices will be forwarded directly to the shipping agent or individual against whom the charges are being assessed.

d. Payment for terminal services may be made in yen, in lieu of the United States dollar charge prescribed herein, in accordance with paragraph 4c above provided the government, commercial company, individual or other agency for whom the terminal service is performed so elects.

6. Liability and processing of claims.

AG 567 (30 Jul 48)GD
SCAFIN 1927

a. The Japanese Government will be held liable for all damage to or loss of cargo, equipment or gear not owned by the Japanese Government or its authorized agents, but in the possession of and arising from negligent or wrongful acts or omissions of the Japanese Government or its authorized agents or agencies of the Japanese Government, incident to the performance of port and/or terminal operations in compliance with this memorandum.

b. The Japanese Government will prepare and submit to the Supreme Commander for the Allied Powers for approval by 1 September 1948 a plan for the submission, adjudication and settlement of approved claims for such damage or loss by:

- (1) The payment thereof in foreign currency acceptable to the Supreme Commander for the Allied Powers through the Supreme Commander for the Allied Powers commercial account, or
- (2) The payment thereof in yen as might be required.

7. The provisions of this memorandum do not change existing directives in connection with the responsibility of the Japanese Government for handling reparations cargo and equipment. In this connection reference is made to Memorandum for the Japanese Government, AG 387.6 (22 Jul 47)REP (SCAFIN 1751), dated 22 July 1947, subject, "Responsibility of the Japanese Government for the Packaging, Transfer and Delivery of Equipment and Records Allocated to Claimant Nations Under the Reparations Program," as amended. The provisions of this memorandum do not apply to facilities or services furnished Shipping Control Administration Japan ships.

8. The Japanese Government will formulate its final organizational and operational plan for full implementation of the provisions of this memorandum and will submit ten (10) copies of this plan to the Supreme Commander for the Allied Powers not later than 1 September 1948.

a. Separate plans will be submitted for the Tokyo-Yokohama and Kobe ports.

b. Each plan will be accompanied by functional charts and will outline in detail the responsibilities, organization, operations and allied functions of each Japanese governmental and/or commercial agency involved.

c. The plan called for in paragraph 6b above will be included.

TO: Japanese Government

1. Reference is made to C.L.C.O. No. 2568 (1G), 13 July 1948.
2. It would appear that the First War Powers Act of the United States, as quoted in the enclosure to reference 1, is applicable to the Japanese to the same extent that it applies to any other group of people. The law is administered by the Attorney General of the United States, however, and there is no information available here as to the implementing regulations issued by him.
3. It is suggested, therefore, that requests for information in regard to this law including the final date for filing claims might be addressed, consistent with regulations issued by the Supreme Commander for the Allied Powers, to the Attorney General of the United States.
4. An inquiry of the United States Government has been initiated with regard to the Act, and any pertinent information received by General Headquarters, Supreme Commander for the Allied Powers, will be forwarded to the Japanese Government.
