

Achievement Targets of Basic Programme for Persons with Disabilities (Fourth)

1. Development of safe and secure living environments

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Securement of houses	Establishment of safe and secure living environments for persons with disabilities	Number of registered dwelling units that are intended for the promotion of smooth move-in for persons requiring housing support, such as persons with disabilities	— (Note) The current figure cannot be calculated at present as the related law was enforced in fiscal 2017.	175,000 units (fiscal 2020)
	Support for safe and secure lives of persons with disabilities in community	Expected amount of services to support cohabitation	108,000 persons (February 2017)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
	Establishment of support systems for safe and secure lives of persons with disabilities in the community	Number of municipalities or welfare blocs for persons with disabilities that have set up one or more support bases for community life	37 municipalities and 9 blocs (April 2017)	All areas (fiscal 2020) (Note) Municipalities or welfare blocs for persons with disabilities will each have one base at least.

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
		Number of local governments promoting projects to establish comprehensive care systems applicable to mental disabilities as well	— (Note) The current figure cannot be calculated at present due to the launch of the project in fiscal 2017.	Increase from previous year (-fiscal 2022)
		Ratio of municipalities that have set up housing support councils or participated in them	40% (March 2017)	80% (fiscal 2020)
Development of mobility-supporting environments	Progress in work to make passenger facilities barrier-free	Barrier-free ratio at set passenger facilities ^(*1)	Elimination of differences in level: 87.2% (fiscal 2016)	Approx. 100% (fiscal 2020)
			Installation of tactile walking surface indicators for visually impaired people: 93.8% (fiscal 2016)	Approx. 100 (fiscal 2020)
			Installation of lavatories friendly to persons with disabilities: 84.2% (fiscal 2016)	Approx. 100 (fiscal 2020)
	Progress in work to make vehicles, etc. barrier-free	Ratio of barrier-free vehicles, etc. ^(*2)	Barrier-free ratio of rail cars: 67.7% (fiscal 2016)	Approx. 70% (fiscal 2020)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
			Adoption ratio of non-step buses (excluding buses certified as exempted from standards): 53.3% (fiscal 2016)	Approx. 70% (fiscal 2020)
			Adoption ratio of lift- or slope-equipped busses to all buses certified as exempted from standards: 6.0% (fiscal 2016)	Approx. 25% (fiscal 2020)
			Number of welfare taxis among taxis: 15,128 (fiscal 2016)	Approx. 28,000 (fiscal 2020)
			Ratio of barrier-free passenger ships: 40.3% (fiscal 2016)	Approx. 50% (fiscal 2020)
			Ratio of barrier-free aircraft: 97.1% (fiscal 2016)	Approx. 90% (fiscal 2020)
Promotion of facilities, products, etc. paying heed to accessibility	Progress in work to make facilities, etc., used by many and unspecified people barrier-free	Barrier-free ratio of buildings used by many and unspecified people, etc. ^(*3)	58% (fiscal 2016)	60% (fiscal 2020)
		Barrier-free ratio of pathways in urban parks, squares, parking lots and lavatories	Park pathways and squares: Approx. 49% (fiscal 2015)	Approx. 60% (fiscal 2020)
			Parking lots: Approx. 46% (fiscal 2015)	Approx. 60% (fiscal 2020)
			Lavatories: Approx. 35% (fiscal 2015)	Approx. 45% (fiscal 2020)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Comprehensive urban development with care for persons with disabilities	Development of roads with care for persons with disabilities	Percentage of designated roads that have incorporated barrier-free design	88% (fiscal 2016)	100% (fiscal 2020)
	Establishment of traffic safety facilities, etc. friendly to persons with disabilities	Barrier-free ratio of traffic signals, etc. on main roads used for daily life	99.5% (fiscal 2016)	100% (fiscal 2020)
		Ratio of death and injury accident prevention by humps, etc. installed on roads for daily life	—	Prevention by approx. 30% from 2014 (fiscal 2020)

(*1) The ratio of facilities clearing standards for smooth public transportation, etc. under the Act on Promotion of Smooth Transportation, etc. to all passenger facilities (railway stations, bus terminals, passenger ship terminals, and passenger aircraft terminals) used by more than 3,000 people on average per day

(*2) The ratio of barrier-free vehicles, etc. that have cleared standards for smooth public transportation, etc.

(*3) The ratio of buildings clearing standards for smooth public transportation, etc. under the Act on Promotion of Smooth Transportation, etc. to the total stock number of specifically designed buildings with a floor space of 2,000 square meters or more (hospitals, theaters, hotels, homes for the aged and others used by an unspecified number of people, especially elderly people, persons with disabilities, etc.)

2. Improvement of accessibility to information and upgrading of support for communication

Target sector	Situation to grasp	Index	Current figure (latest figure)	Target figure
Improvement of accessibility to information in telecommunications	Progress in support for improvement of information and communication paying heed to persons with disabilities	Ratio of practically applied cases more than 3 years after completion of “support project for technological, etc. research and development for elimination of digital divides.”	40% (fiscal 2013)	Similar level from previous year (-fiscal 2022)
	Progress in practical application of equipment useful for improvement of communication	(Cumulative) Number of devices commercially produced through development subsidies under project to promote development of equipment to support independence of persons with disabilities (Note) Many devices took several years from subsidization to commercial production	27 (fiscal 2016)	84 (fiscal 2018)
Upgrading supply of information	Dissemination of broadcasting programs paying heed to persons with disabilities	Ratio of broadcasting hours of captioned programs to all programs under review	NHK General: 97.4% Five Tokyo-based key broadcasting stations: 99.5% (fiscal 2016)	NHK General and Five Tokyo-based key broadcasting stations: 100% (fiscal 2022) (Note) 100% after expanding daily length of broadcasting hours under review to 18 per day from 17

Target sector	Situation to grasp	Index	Current figure (latest figure)	Target figure
		Ratio of broadcasting hours of explanatory programs to all programs under review	NHK General: 12.7% NHK Educational: 17.9% Five Tokyo-based key broadcasting stations: 11.7% on average (fiscal 2016)	NHK General and Five Tokyo-based key broadcasting stations: more than 13.5% NHK Educational: More than 19% (fiscal 2022)
	Progress in support for increasing communication and broadcasting paying heed to persons with disabilities	Ratio of services in operation 2 years after completion of subsidy program for “promoting supply and development, etc. of communication and broadcasting services for persons with disabilities.”	92.6% (fiscal 2014)	Similar level from previous year (-fiscal 2022)
	Establishment of bases providing information to persons with disabilities in community	Number of prefectures having facilities to provide information for persons with hearing disabilities	45 (fiscal 2016)	47 (fiscal 2018)

Target sector	Situation to grasp	Index	Current figure (latest figure)	Target figure
Upgrading of support for communication	Moves for practical use of support equipment for communication	(Cumulative) Number of devices commercially produced through development subsidies under project to promote development of equipment to support independence of persons with disabilities [Reposting] (Note) Many devices took several years from subsidization to commercial production	27 (fiscal 2016)	84 (fiscal 2018)
Improvement of accessibility to government information	Secured accessibility to information on websites of public organs	Rate of compliance with JIS standards for barrier-free access to information on websites of public organs	— (Note) The current figure cannot be calculated at present due to the launch of surveys in fiscal 2017	<i>(To be set based on results of fiscal 2017 survey and opinions by parties concerned, etc.)</i>

3. Promotion of disaster and crime prevention measures, etc.

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Promotion of disaster prevention measures	Establishment of environments capable of providing medical care and welfare services even at time of disaster	Ratio of measures implemented to protect facilities for persons in need of consideration and disaster prevention bases and save human lives from landslide damage	Approx. 39% (fiscal 2016)	Roughly 41% (fiscal 2020)
	Establishment of environments enabling smooth reports by persons with disabilities	Ratio of firefighting headquarters having systems enabling persons with hearing and language disabilities to place emergency calls to 119 for filing reports by means of smartphone and other devices	Approx. 18% (May 2017)	100% (fiscal 2020)
Promotion of reconstruction	Implementation of programs for persons with disabilities in reconstruction measures	Number of follow-up articles on measures for persons with disabilities and reports on new cases posted in “collection of cases – reconstruction from viewpoint of gender equality”	One (fiscal 2016) (Note) follow-up article	Four (fiscal 2018 to 2020) (Note) Total of follow-up articles and reports on new cases

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Prevention of consumer trouble, and relief from damage	Establishment of systems to warmly watch persons with disabilities and other consumers in need of special consideration in consumer life	Number of municipalities (with population of more than 50,000) that have local councils for securement of consumer safety	38 municipalities (January 2018)	All municipalities with population of more than 50,000 (fiscal 2019)

4. Elimination of discrimination, promotion of rights advocacy, and prevention of abuse

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Promotion of rights advocacy and prevention of abuse	Implementation of peer support	Number of local governments implementing projects to support transition and life in community (projects related to peer support)	25 (fiscal 2015)	Increase from previous year (-fiscal 2022)
		Number of local governments implementing projects to promote establishment of comprehensive care systems applicable to persons with mental disabilities as well (projects related to peer support)	— (Note) The current figure cannot be calculated at present due to the launch of the project in fiscal 2017.	Increase from previous year (-fiscal 2022)
Promotion of elimination of discrimination based on disabilities	Preparation of public-service regulations that administrative organ officials should respect for elimination of discrimination against persons with disabilities	Ratio of local governments that have prepared Handling Directions based on Act for Eliminating Discrimination against Persons with Disabilities	Core cities ^{*4} : 92.7% (April 2017)	100% (fiscal 2022)
			Other municipalities ^{*5} : 61.6% (April 2017)	100% (fiscal 2022)
	Formation of network for effective and smooth implementation of programs in community	Ratio of local governments having Regional Support Councils for Eliminating Discrimination against Persons with Disabilities	Core cities ^{*4} : 68.3% (April 2017)	100% (fiscal 2022)
			Other municipalities ^{*5} : 37.8% (April 2017)	More than 70% (fiscal 2022)

*4: Core cities, special districts, and prefectural capitals (excluding government-designated cities)

*5: Cities other than government-designated cities and core cities (*4)

5. Promotion of support for independent life and decision-making

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Establishment of counseling and support system	Implementation of counselling and support for persons with disabilities, etc.	Number of people using counselling and support projects	Counselling and support for plans: 144,000 (September 2017)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
			Counselling and support for children with disabilities: 49,000 (September 2017)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
		Number of people who have completed “beginning counselling and supporting personnel training” held by prefectures	12,290 (fiscal 2016)	Increase from previous year (-fiscal 2020)
		Number of counselling cases at counselling and support centers for intractable/rare diseases	119,721 (fiscal 2015)	Increase from previous year (-fiscal 2022)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
	Establishment of support systems for developmental disabilities	Ratio of municipalities and government-designated cities having local councils to support persons with developmental disabilities (Note) The councils had been called “examination committees for establishment of support systems for persons with developmental disabilities” until fiscal 2016	87% (fiscal 2016)	100% (fiscal 2022)
Enrichment of transition support to community life, home care services, etc.	Transition of residents in welfare facilities	(Cumulative) Number of residents in welfare facilities transferred to community life	41,000 (fiscal 2005 to 2015)	55,000 (fiscal 2005 to 2020)
	Implementation of support for smooth transition to community life	Expected amount of services to support cohabitation [Reposting]	108,000 people (February 2017)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
		Expected amount of services to support independent life	— (Note) The current figure cannot be calculated at present due to the launch of the project in fiscal 2018.	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
		Hours used for home visit-oriented services	5,425,635 hours (fiscal 2016)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
		Expected amount of services for training for independence (functional exercise and training for daily life)	16,000 people (February 2017)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
		Expected amount of services for short-term stay	302,391 man-days (fiscal 2016)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
	Establishment of support systems for smooth transition to community life	Number of municipalities and welfare blocs for persons with disabilities that have set up one or more support bases for community life [Reposting]	37 municipalities and 9 blocs (April 2017)	All areas (fiscal 2020) (Note) Municipalities or welfare blocs for persons with disabilities will each have one base at least.
		Number of local governments promoting projects to establish comprehensive care systems applicable to mental disabilities as well [Reposting]	— (Note) The current figure cannot be calculated at present due to the launch of the project in fiscal 2017	Increase from previous year (-fiscal 2022)
Enrichment of support for children with disabilities	Implementation of support for children with disabilities	Number of business establishments providing development support for children with disabilities (Note) Based on Child Welfare	Development support for children with disabilities: 3,931 business establishments (March 2016)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
		Act, etc.	<p>Medical development support for children with disabilities: 99 business establishment (March 2016)</p> <p>Day services for after-school children: 7835 business establishments (March 2016)</p> <p>Nursery center visiting support: 412 business establishments (March 2016)</p> <p>Development support center for children with disabilities: 505 business establishments (March 2016)</p> <p>Home for children with disabilities: 376 business establishments (March 2016)</p>	
		Implementation of training for career advancement of nurses for children, etc.	<p>—</p> <p>(Note) The current figure cannot be calculated at present due to the launch of the project in fiscal 2017.</p>	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
	Implementation of support for children with severe physical and mental disabilities	Number of business establishments offering development support, etc. for children with severe physical and mental disabilities (Note) Based on Child Welfare Act, etc.	Development support for children with disabilities: 237 business establishments (fiscal 2016)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i> (Note) In principle, municipalities each are assumed to have at least one place (fiscal 2020)
			Medical development support for children with disabilities: 55 business establishment (fiscal 2016)	
			Day services for after-school children: 720 business establishments (fiscal 2016)	
	Establishment of support systems for persons with developmental disabilities	Ratio of prefectures and government-designated cities having set up two or more support centers for persons with developmental disabilities or assigned local support managers	70% (fiscal 2016) (Note) Breakdown - Ratio for establishment of multiple support centers for persons with developmental disabilities: 25.4% - Ratio of assignment of local support managers: 56.7%	100% (fiscal 2022)
	Programs to facilitate understanding of developmental disabilities among healthcare practitioners	Ratio of prefectures and government-designated cities conducting training to enhance the readiness of primary care doctors, etc. to treat developmental disabilities for primary care doctors	15% (fiscal 2016)	100% (fiscal 2022)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Improvement of quality of welfare services for persons with disabilities	Fostering of experts to offer guidance to service providers	Number of people completing training held by prefectures for leaders responsible for service management	14,919 (fiscal 2016)	Increase from previous year (-fiscal 2020)
		Number of people completing training held by prefectures for leaders responsible for management of development support for children with disabilities	6,340 (fiscal 2016)	Increase from previous year (-fiscal 2020)
Promotion and research and development of assistive products contributing to improvement of accessibility and fostering of assistance dogs for physically disabled people	Commercial production of equipment contributing to improvement of accessibility by persons with disabilities	(Cumulative) Number of devices commercially produced through development subsidies under project to promote development of equipment to support independence of persons with disabilities [Reposting] (Note) Many devices took several years from subsidization to commercial production	27 (fiscal 2016)	84 (fiscal 2018)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
		Commercialization rate of market products three years after completion of subsidized work under development support project for practical realization of solutions-oriented welfare equipment	50% (fiscal 2016)	More than 50% (-fiscal 2022)

6. Promotion of health and medical care

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Appropriate provision of mental health and medical care	Long-term hospitalization in mental wards	Number of patients subjected to long-term hospitalization of more than one year in mental wards (Note) Demented patients included	Approx. 185,000 (fiscal 2014)	146,000 to 157,000 (fiscal 2020)
	Social rehabilitation of people subjected to mental health supervision	Ratio of people for whom termination of treatment was decided ^(note) and people who ended the treatment to annual number of mental health supervision cases handled (Note) Limited to decisions of termination of treatment to the request by the director of the probation office based on Article 56, Paragraph 1 and Item 2 of the Act on Medical Care and Treatment for Persons Who Have Caused Serious Cases Under the Condition of Insanity	22.7% (fiscal 2016)	Increase from previous year (-fiscal 2022)
	Implementation of measures for transition of persons with mental disabilities to community life	Expected amount of services to support transition to community	500 people (February 2017)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
		Expected amount of services for community life fixing support	3,000 people (February 2017)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
		Number of local governments implementing community transition and community life fixing support projects [partially reposting]	Outreach project: three organizations (fiscal 2015)	Increase from previous year (-2022)
			Peer support utilization project: 25 organizations (fiscal 2015)	Increase from previous year (-fiscal 2022)
		Number of local governments promoting projects to establish comprehensive care systems applicable to mental disabilities as well [Reposting]	— (Note) The current figure cannot be calculated at present due to the launch of the project in fiscal 2017.	Increase from previous year (-fiscal 2022)
	Establishment of systems offering mental and medical care	Number of designated medical institutions (hospitals and health clinics) to which persons with disabilities can go	595 (October 2017) (Note) Five prefectures yet to clear the standard for “more than two or three institutions per population of 1 million”	More than two or three institutions per population of 1 million in all prefectures (fiscal 2018)
	Implementation of measures for promotion of mental health	Ratio of business establishments working for mental health	56.6% (fiscal 2016)	More than 80% (fiscal 2022)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
	Dissemination of information concerning promotion of mental health	Number of accesses to website “Mental Health for All People”	294,007 (fiscal 2015)	Increase from previous year (-fiscal 2022)
Enrichment of health and medical care	Establishment of systems to accept persons with disabilities in need of medical care	Expected amount of services for short-term medical stay	25,877 man-days (fiscal 2016)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
			305 institutions (April 2016)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
		Number of local governments promoting projects to establish comprehensive care systems applicable to mental disabilities as well [Reposting]	— (Note) The current figure cannot be calculated at present due to the launch of the project in fiscal 2017.	Increase from previous year (-fiscal 2022)
	Implementation of measures for transition of persons with disabilities to community life	Number of local governments implementing community transition and community life fixing support projects [Reposting]	Outreach project: 3 organizations (fiscal 2015)	Increase from previous year (-fiscal 2022)
Peer support utilization project: 25 organizations (fiscal 2015)			Increase from previous year (-fiscal 2022)	

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
	Implementation of measures to promote dental and oral health care at welfare facilities	Implementation ratio of regular dental examinations at support facilities for persons with disabilities and accommodation facilities for children with disabilities	62.9% (fiscal 2016)	90% (fiscal 2022)
	Implementation of counselling and support for patients with intractable/rare diseases, etc.	Number of counselling cases at counselling and support centers for intractable/rare diseases [Reposting]	119,721 (fiscal 2015)	Increase from previous year (-fiscal 2022)
Promotion of research and development, etc. that contribute to improvement of health and medical care	Research and development of drugs, etc.	Number of reported clinical trials	645 (fiscal 2016)	Increase from previous year (-fiscal 2022)
		Number of pharmaceutical approvals for new drugs and of application expansions for existing drugs (Note) Amyotrophic lateral sclerosis, distal myopathy, etc.	3 (end of fiscal 2016)	More than 11 (around 2020)
		Number of uses of biological drug production technologies meeting the international standards	9 (fiscal 2016)	20 (fiscal 2018)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
		Number of reported plans for provision of regenerative medical treatment, etc. based on the Act on the Safety of Regenerative Medicine, etc. (Note) Limited to clinical trials	116 (fiscal 2016)	Increase from previous year (-fiscal 2022)
	Research and development of medical equipment, etc.	Number of innovative medical devices and systems put into practical use	None (fiscal 2016)	5 (fiscal 2020)
		Commercialization rate of market products 3 years after completion of subsidized work under development support project for practical realization of solutions-oriented welfare equipment [Reposting]	50% (by fiscal 2016)	More than 50% (-fiscal 2022)
	Implementation of support for research and development of drugs, etc.	Number of cases offering RS Strategy Consultation (Note) RS Strategy Consultation: Regulatory Science Strategy Consultation	100 (fiscal 2016)	Increase from previous year (-fiscal 2022)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
		Number of pharmaceutical applications for items subject to project to develop methods of assessing products for regenerative medicine, etc.	None (fiscal 2016)	3 (fiscal 2018)
Fostering and securement of human resources who support health and medical care	Establishment of systems to nurture human resources for health and medical care in the community	Number of local governments conducting projects to promote education of personnel engaged in health care services in the community	111 (fiscal 2016)	Increase from previous year (-fiscal 2022)
Promotion of health and medical care programs for intractable/rare diseases	Subsidies for medical expenses concerning intractable/rare disease	Number of holders of certificates issued for specific disease treatment	986,071 (fiscal 2016)	Increase from previous year (-fiscal 2022)
	Implementation of counselling and support for patients with intractable/rare diseases	Number of counselling cases at counselling and support centers for intractable/rare diseases [Reposting]	119,721 (fiscal 2015)	Increase from previous year (-fiscal 2022)
	Research and development of drugs, etc. for intractable/rare diseases	Number of pharmaceutical approvals for new drugs and of application expansions of existing drugs [Reposting] (Note) Amyotrophic lateral sclerosis, distal myopathy, etc.	3 (end of fiscal 2016)	More than 11 (around 2020)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
	Establishment of systems to provide medical care concerning intractable/rare diseases	Establishment rate of linked hospitals for examination and treatment of intractable/rare diseases in prefectures	— (Note) The current figure cannot be calculated at present due to the launch of the new project in fiscal 2018	100% (fiscal 2022)
Prevention and treatment of diseases, etc. that cause disabilities	Implementation of support for patients of diseases, injuries, etc.	Number of local governments implementing community transition and community life fixing support projects (outreach projects) [Reposting]	3 (fiscal 2015)	Increase from previous (-fiscal 2022)
		Number of local governments promoting projects to establish comprehensive care systems applicable to mental disabilities as well [Reposting]	— (Note) The current figure cannot be calculated at present due to the launch of the new project in fiscal 2017.	Increase from previous year (-fiscal 2022)

7. Enrichment of consideration at government, etc.

Target area	Situation of grasp	Index	Current figure (latest figure)	Target figure
Consideration in elections, etc.	Implementation of consideration for visually impaired people in elections	Number of prefectures distributing “notice of election” in braille and audio versions in national elections	47 (fiscal 2016)	47 (fiscal 2022)
	Implementation of care for persons with physical disabilities in elections	Measures taken such as elimination of differences in levels at voting stations and early-voting stations for national elections	Early-voting stations: 99.5% (fiscal 2016)	100% (fiscal 2022)
			Voting stations: 99.8% (fiscal 2016)	100% (fiscal 2022)

8. Support for employment, work, and economic independence

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Comprehensive support for work	Implementation of support for work	Number of users of support for transition to work	Equivalent to 542,000 man-days (fiscal 2015)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
		Number of users of welfare facilities for induction to support centers for employment and lives of persons with disabilities from welfare facilities	— (Note) The current figure is unavailable before the launch of surveys.	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
	Establishment of systems to provide support for work	Number of nurtured job coaches	8,613 (fiscal 2016)	<i>(To be set based on new medium-term goal of independent administrative body Japan Organization for Employment of Elderly Persons with Disabilities and Job Seekers)</i>
	Employment of persons with disabilities who have received support for work	Annual number of persons transiting to general employment	14,000 (fiscal 2015)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
		Number of employed persons among those registered with support centers for employment and lives of persons with disabilities	19,000 (fiscal 2016)	24,000 (fiscal 2022)
		Employment rate of graduates from polytechnic schools	70.7% (fiscal 2015)	70% (fiscal 2022)
		Employment rate of persons with disabilities who have completed commissioned training	47.9% (fiscal 2015)	55% (fiscal 2022)
	Workshop retention of persons with disabilities who have received support for work	Workshop retention rate of persons one year after support under support project for workshop retention (Note) Ratio of employed persons among those who have received care for living, training for independence, support for transition to work and support for continuous work under Act on Comprehensive Support for Persons with Disabilities	— (Note) The current figure cannot be calculated at present due to the launch of the new project in fiscal 2018.	More than 80% (fiscal 2018-2020)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
		Workshop retention rate of persons with mental, development or higher brain disabilities among people completing job coaches' support.	85.7% (fiscal 2016)	<i>(To be set based on new medium-term goal of independent administrative body Japan Organization for Employment of Elderly Persons with Disabilities and Job Seekers)</i>
		Workshop retention rate of persons with mental disabilities among people registered with support centers for employment and life of persons with disabilities	71.5% (fiscal 2016)	75.0 (fiscal 2022)
	Establishment of environments enabling persons with disabilities to make choices from various ways of work	Ratio of employment-type teleworkers under telework system, etc.	7.7% (fiscal 2016)	Doubling from fiscal 2016 (15.4%) (2020)
Promotion of employment of persons with disabilities	Employment of persons with disabilities at private companies	Number of persons with disabilities employed by companies with workforce of 43.5 or more	496,000 (June 2017) (Note) Companies with workforce of more than 50	585,000 (fiscal 2022)
	Employment of persons with disabilities at public organs	Number of public organs clearing employment rate of persons with disabilities	2,345 (of 2,655 organs) (88.3%) (fiscal 2016)	All public organs (fiscal 2022)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
	Job referrals at public employment security offices	Number of employment cases (persons with disabilities) at public employment security offices	414,000 (cumulative total in fiscal 2012-2016)	53,3000 (cumulative total in fiscal 2018-2022)
Support for work matching the characteristics of disabilities and securement of various employment opportunities	Programs to support for work by persons with disabilities in agriculture	Number of prefectures conducting projects for promotion of persons with disabilities' employment in agriculture through agriculture-welfare tie-ups	28 (fiscal 2016)	All prefectures (fiscal 2018)
	Programs to secure opportunities to win orders by facilities employing persons with disabilities, etc.	Amount of goods and services purchased (procurement) in priority from facilities employing persons with disabilities, etc.	17.1 billion yen (fiscal 2016)	Increase from previous year (-fiscal 2022)
Upgrading of welfare-oriented work	Wages receivable at B-type business establishments supporting continuation of work	Average monthly wage at B-type business establishments supporting continuation of work	15,033 yen (fiscal 2015)	<i>(To be set based on fifth welfare plans for persons with disabilities to be prepared by local governments, etc.)</i>
	Programs to secure opportunities to win orders by facilities employing persons with disabilities, etc.	Amount of goods and services purchased (procurement) in priority from facilities employing persons with disabilities, etc. [Reposting]	17.1 billion yen (fiscal 2016)	Increase from previous year (-fiscal 2022)

9. Promotion of education

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Promotion of an inclusive education system	Utilization of individual guidance plans and individual education support plans	Ratio of children, for whom individual guidance plans have been actually prepared, among children, etc. in need of individual guidance plans at kindergartens, elementary schools, junior high and senior high schools, etc.	81.9% (fiscal 2016)	Approx. 100% (fiscal 2022)
		Ratio of children, for whom individual education support plans have been actually prepared, among children, etc. in need of individual education support plans at kindergartens, elementary schools, junior high and senior high schools, etc.	75.7% (fiscal 2016)	Approx. 100% (fiscal 2022)
		Ratio of kindergartens, elementary schools, junior high and senior high schools, etc. that are set to stipulate the provision of reasonable accommodation in individual guidance plans or individual education support plans	66% (fiscal 2016) (Note) The figure represents only education support plans.	Approx. 100% (fiscal 2022)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
	Guidance through special classes	Number of children receiving guidance in special classes at elementary, junior high, senior high schools, etc.	98,311 (fiscal 2016) (Note) The figure covers only public elementary and junior high schools. (For senior high schools, data will be collected starting in fiscal 2018)	Increase from previous year (-fiscal 2022)
	Establishment of systems to promote special needs education	Ratio of elementary schools, junior high and senior high schools, etc. that have introduced necessary systems and programs to offer special needs education. (Note) Establishment of in-school committees, reality checks, appointment of coordinators for special needs education, preparation of individual guidance plans and individual education support plans, stipulation of reasonable accommodation in plans and improvement of teachers' expertise	— (Note) The current figure cannot be calculated at present as surveys have yet to start.	Approx. 100% (fiscal 2022)
Development of educational environments	Improvement of teachers' expertise at special schools	Ratio of teachers having license for special needs education at special schools	75.8% (fiscal 2016)	Approx. 100% (fiscal 2020)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
	Special schools' exercise of center-like roles	Ratio of schools having division of duties and systems mainly for center-like roles (example: community support section, etc.)	93.1% (fiscal 2015)	100% (fiscal 2022)
Promotion of support for students with disabilities in higher education	Provision, etc. of reasonable accommodation for students with disabilities	Ratio of universities, etc. providing coursework support for enrolled students with disabilities	80% (fiscal 2016)	Approx. 100% (fiscal 2022)
		Ratio of universities, etc. offering support, in addition to education, for students with disabilities	69% (fiscal 2016)	Approx. 100% (fiscal 2022)
	Establishment of systems for support, etc. for students with disabilities	Ratio of universities, etc. that have prepared rules, etc. for support for students with disabilities, an outline of measures in relation to the Act for Elimination of Discrimination Against Persons with Disabilities, basic policies, etc.	36% (fiscal 2016)	100% (fiscal 2022)
		Ratio of universities, etc. having officials in charge of students with disabilities	92.1% (fiscal 2016)	100% (fiscal 2022)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
		Ratio of universities, etc. have coordination sections for preventing and settling trouble, etc.	38% (fiscal 2016)	100% (fiscal 2022)
		Ratio of universities, etc. disclosing information on support for students with disabilities on their websites	34% (fiscal 2016)	100% (fiscal 2022)
		Ratio of universities, etc. providing information on internal rules for support for students with disabilities and cases of support in guidance	— (Note) The current figure cannot be calculated at present as surveys have yet to start.	100% (fiscal 2022)
	Employment guidance for students with disabilities	Ratio of universities, etc. developing employers and providing support for job-hunting activities for enrolled students with disabilities.	21% (fiscal 2016)	Approx. 100% (fiscal 2022)
		Ratio of universities, etc. providing information on employment of students with disabilities for enrolled students with disabilities.	23% (fiscal 2016)	Approx. 100% (fiscal 2022)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
	Disclosure of information on consideration for students with disabilities in entrance examinations for universities, etc.	Ratio of universities, etc. mentioning consideration for students with disabilities in examination literature	80% (fiscal 2016)	Approx. 100% (fiscal 2022)
Enrichment of various lifelong learning activities	Lifelong learning activities of students with disabilities after graduation	Ratio of persons with disabilities replying that easy access to opportunities for learning and sports, cultural, and other activities is ensured.	— (Note) The current figure cannot be calculated at present due to the launch of surveys in fiscal 2018.	<i>(To be set based on results of surveys starting in fiscal 2018 and opinions by parties concerned)</i>

10. Promotion of cultural and art activities, sports, etc.

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Development of social environments for enrichment of cultural and art activities	Support for cultural and art activities by persons with disabilities	Number of organizations adopting projects to promote and support cultural and art activities by persons with disabilities	10 organizations (fiscal 2016)	47 organizations (fiscal 2019)
	Provision of opportunities for children at special schools, etc. to appreciate and experience excellent culture and art	Ratio of schools relying that children could “nurture rich spirit, sensibility and creativity” by watching excellent theatrical art	89.4% (fiscal 2015)	90% (fiscal 2022)
Development of environments for familiarization with sports	Diffusion of sports for persons with disabilities in the community	Rate of persons with disabilities playing sports once or more per week	Adults: 19.2% (fiscal 2015)	Adults: approx. 40% (fiscal 2021)
			Children and young adults: 31.5% (fiscal 2015) (Note) 7 to 19 year olds	Children and young adults: approx. 50% (fiscal 2021)
	Fostering of coaches for sports for persons with disabilities	Number of coaches for sports for persons with disabilities	22,000 (fiscal 2015)	30,000 (fiscal 2021)
			Ratio of coaches for sports for persons with disabilities who do not have places of activity	13.7% (fiscal 2015)

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Promotion of programs related to competitive athletic events	Fostering and reinforcement of athletes	Number of gold medals at Paralympic Games	Summer Games: None (2016) Winter Games: 3 (2018)	Record number of gold medals (Note) Summer Games: More than 18 (2020) Winter Games: More than 13 (2022)

11. Promotion of cooperation and coordination in the international community

Target area	Situation to grasp	Index	Current figure (latest figure)	Target figure
Promotion of international cooperation via official development assistance	Nurture of people involved in international cooperation	Number of trainees accepted in JICA's activities for persons with disabilities	125 (fiscal 2016)	More than previous year's level (-fiscal 2022)
	Activities by persons involved in international cooperation	Number of experts dispatched to JICA's activities for persons with disabilities	11 (fiscal 2016)	More than previous year's level (-fiscal 2022)
		Number of volunteers in JICA's activities for persons with disabilities	122 (fiscal 2016)	135 (-fiscal 2022)
	Implementation of technical cooperation for persons with disabilities	Number of technical cooperation projects for persons with disabilities through JICA	8 (fiscal 2016)	More than previous year's level (-fiscal 2022)
Promotion of international exchanges among persons with disabilities	Support for private organizations engaging in international exchanges, etc.	Number of projects adopted through Grant Assistance for Japanese NGO Projects	7 (fiscal 2016)	More than previous year's level (-fiscal 2022)
