

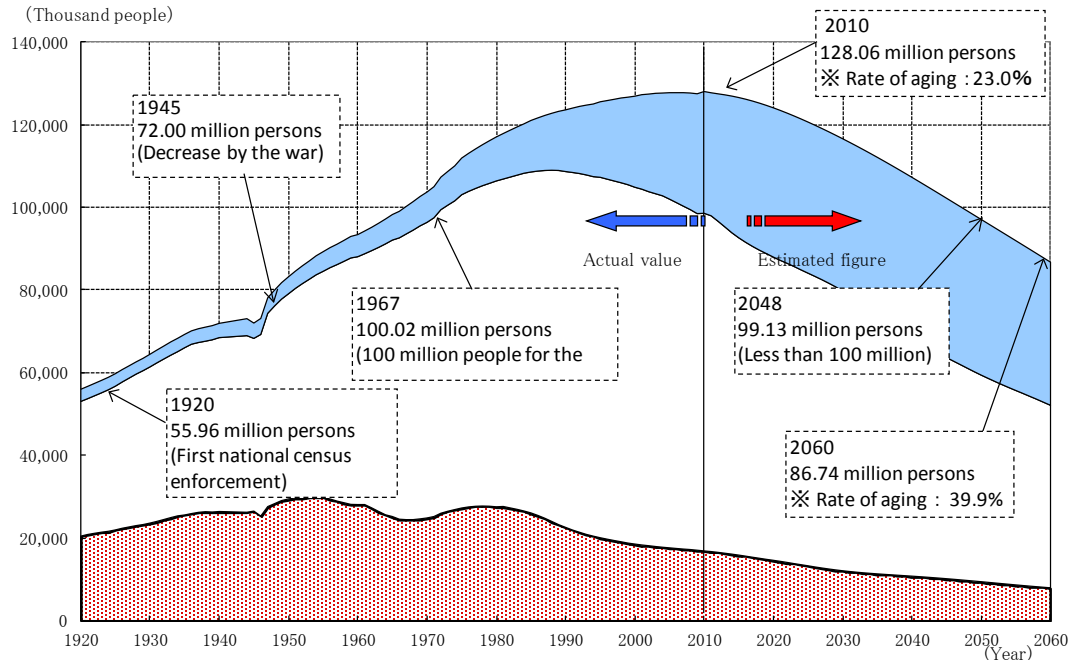

Figure 1-2-24: Changes and outlook of population structure in Japan

Source: Actual values (1920~2010) are from "Population Census", "Population Estimates" and "Population Survey in 1945" by the Ministry of Internal Affairs and Communications. Estimated records (2011~2060) are from intermediate estimated records of "Future Population Estimates (January 2012)" by the National Institute of Population and Security Research.

Note: From 1941 to 1943, interpolating population by 3 groups of age in 1940 and 1944. From 1945 to 1971, not including Okinawa. For Population Census years, apportioning the age unknown minute.
