It is the most realistic activity to do during the pandemic, can be accessed by people from many countries, less government-related experts, etc.

Education Group

Challenges and Opportunities for Youth in Global Companies

What are young people powers?

- 1. Technologically Savvy**
40% of New Pacific & Americas youth want to work with cutting-edge technology (Deloitte Insights, 2018).
- 2. Tend to be more open-minded and empathetic**
70% millennials are more empathetic to make a positive impact after pandemic (Statista, 2020).
- 3. Flexibility, adaptability, agility**
Cornell University study shows stronger adults are better at responding when routine task is interrupted by unexpected events (ScienceDaily, 2011).

How youth overcome challenges with their power to deliver positive impact through global companies?

- 1. Take advantage of digital transformation or technology adoption**
72% people believe digitalization enables us to make a positive impact (McKinsey, 2018).
- 2. Strengthen collaboration & empowerment**
73% of youth mentioned that their work happens in collaborative that enables to focus and maximize (Financial Research, 2018).
- 3. Gain a holistic understanding of the subject**
40% of young professionals are well-versed in their knowledge of soft skills and cultural training (PwC/LinkedIn, 2018).

Global Company Group

Go to www.earth.com and use the code 24-02-24-6

What is Social Enterprise?

business

Entrepreneurship Group

Solution 2
The most environmentally friendly app in Japan and SEA countries

- ★ Rating system: More rating, more environmentally friendly
- ★ Call center (Technical Support For Customers)

ICT Group

WHAT COMES INTO YOUR MIND WHEN YOU HEAR "NGO/NPO"? (1 WORD)

NGO/NPO Group

Disaster Risk Reduction and Covid-19

Similarities	Differences
<ul style="list-style-type: none"> Disrupts access to services and service delivery Affects key economy sectors Some are more vulnerable than others Clear policy measures and public communication is crucial 	<ul style="list-style-type: none"> Global, affecting every continent in the world No physical damage BUT economic losses and socio-economic impacts are substantial Threatens to create new poor communities

Environment and Disaster Risk Reduction Group

ENERGY SYSTEM OR ELECTRICITY
(INCORPORATE CONCEPT IN BUNNENGAH CITY PROJECT)

- Resilient Energy System
 - Mixed-use of renewable energy and conventional energy
 - Demand-based energy use

Hard Infrastructure

- Build energy Center for Monitoring, Operating and Managing the energy Consumption and emission reduction.
- Using Smart device, like smart lamp with automatic and integrated system.
- Covered energy plant to prevent disaster threat.

PLANET

Infrastructure Group

Development of Youths/Young Adults

Programme allows for PYs to empower youths (non-PYA) by sharing their SSEAYP experience.

Improvement on PYs self-development.

SSEAYP Conference for Considering its Role and Significance
